

Titanium Metal CNC Turning Machining Parts Quick Quote OEM

Our Product Introduction

For more products please visit us on lathecnm machining.com

Basic Information

- Place of Origin: Guangdong, Shenzhen
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Drawing Format: STP . STEP . IGS . PRT . X_T
- Sample: Available
- Equipment: 3/4/5 Axis Center Machining
- OEM/ODM: Accepted
- Highlight: titanium CNC Turning Machining Parts, Titanium Metal CNC Turning Machining Parts, Titanium machined metal parts

Product Description

Product Description:

Our Product

INDUSTRIAL-MAN CNC Turning Machining Parts are custom CNC machining parts that have been created to meet the highest standards of quality. Our CNC machining turning parts use advanced CNC machines and technology to provide precise, repeatable, and high-quality results. We can create CNC turning parts with a variety of materials, including stainless steel, titanium, aluminum, and more. Our parts are made to last and are backed by our IATF 16949: 2016/ISO 9001:2015 certification. Our CNC machining turning parts are created with micro machining, broaching, drilling, etching/chemical machining, laser machining, milling, other machining services, turning, wire EDM, and rapid prototyping. Our CNC turning machining parts are all manufactured in Guangdong, Shenzhen with superior craftsmanship and attention to detail. We guarantee that our CNC turning machining parts will provide you with the performance and reliability you need.

Features:

Product Name: CNC Turning Machining Parts

Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys

Place of Origin: Guangdong, Shenzhen

Drawing Format: STP . STEP . IGS . PRT . X_T

MOQ: 1 Piece

CNC Machining or Not: CNC Machining

Specializing in: CNC Machining Auto Parts, CNC Turning Machining Parts, 5 Axis CNC Machining Parts

Technical Parameters:

Parameters	Values
Product Name	CNC Turning Machining Parts
Sample	Available
MOQ	1 Piece
Delivery Time	3-5 Days
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Certification	IATF 16949: 2016/ISO 9001:2015
Surface Treatment	Customer's Request
CNC Machining or Not	CNC Machining
Place of Origin	Guangdong, Shenzhen
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
Keywords	CNC Lathe Turning Parts, Custom CNC Machining Parts, CNC Turning Machining Parts

Applications:

Industrial Man CNC Turning Machining Parts are precision parts which are manufactured using high-precision CNC lathe turning machines with custom OEM/ODM services. Made with advanced CNC machining technology, our CNC turning machining parts have tolerance of 0.01- +/-0.005mm and can be used for 3/4/5 Axis Center Machining. We also provide fast delivery, usually within 3-5 days. CNC Turning Machining Parts are widely used in industrial applications such as aerospace, automotive, medical, and consumer electronics. They are ideal for CNC lathe turning parts, CNC machining metal parts, and custom CNC machining parts. With Industrial Man's CNC Turning Machining Parts, you can easily build products with reliable accuracy and high-precision performance.

Customization:

Industrial Man offers CNC turning machining parts with features of Brand Name: Industrial Man; Model Number: OEM; Place of Origin: Guangdong, China; MOQ: 1 Piece; Surface treatment: Customer's Request; Certification: IATF 16949: 2016/ISO 9001:2015; Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping; Equipment: 3/4/5 Axis Center Machining. We specialize in CNC machining metal parts, CNC machining turning parts and other related services.

Support and Services:

CNC Turning Machining Parts Technical Support and Service

We provide comprehensive technical support and service for CNC Turning Machining Parts. Our team of professionals is available 24/7 to help you with any questions or concerns you may have related to our products.

We have an extensive knowledge base of CNC Turning Machining Parts that provides detailed explanations of our products and services, as well as helpful tips and tricks for getting the most out of them.

We also offer a variety of maintenance and repair services for CNC Turning Machining Parts, including troubleshooting, diagnostics, and parts replacement. Our technicians are highly trained and experienced with CNC Turning Machining Parts, so you can be sure that your product will be in good hands.

If you need more assistance, we also provide phone and email support to help you with any questions or problems you may have. Our team of certified technicians is available to answer your questions and provide helpful advice and support.

Packing and Shipping:

Packaging and Shipping for CNC Turning Machining Parts:

The CNC Turning Machining Parts will be packaged in individual plastic bags and then in cardboard boxes to ensure that the parts are protected during transit. The box will be marked with the product name and address of the supplier before being securely sealed with adhesive tape.

The CNC Turning Machining Parts will then be shipped using a reputable courier service, with tracking details provided to the customer. It is the responsibility of the customer to ensure that the parts are received in good condition. If any damage is found, the customer should contact the courier company to arrange for a refund.

FAQ:

Q1: What is CNC Turning Machining Parts?

A1: CNC Turning Machining Parts is a type of precision parts which are produced by using CNC (Computer Numerical Control) technology.

Q2: What is the brand name of this product?

A2: This product is manufactured by Industrial Man.

Q3: What is the model number of this product?

A3: This product is OEM.

Q4: Where is this product manufactured?

A4: This product is manufactured in Guangdong, China.

Q5: What materials are used to make this product?

A5: This product can be made of various materials such as stainless steel, carbon steel, aluminum, brass, etc.
