

## Prototype Model Photosensitive Resin 3d Printing Service ODM

Our Product Introduction

For more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- MOQ: 1 Piece
- Tolerance: 0.01-0.05mm
- Product Name: Custom Prototype Model 3D Printing
- Color: Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber
- Size: Customer's 3D Drawing
- Micro Machining Or Not: Micro Machining
- Logo: Accept Custom Logo
- Highlight: **Prototype photosensitive resin 3d printing,**  
**ODM photosensitive resin 3d printing,**  
**Photosensitive resin printing service**

### Product Description

**Product Description:**

Our Product Introduction

## SLA SLS 3D Printing

SLA SLS 3D Printing is a comprehensive 3D printing product that provides customers with custom prototype model, industrial plastic 3D printer, 3D printing post processing machines and 3D lenticular printing services. Our 3D printing product is reliable and efficient, and able to meet customer's needs for size, micro machining, logo, tolerance and model number etc.

Size: Our 3D printing product can meet customer's 3D drawing demands.

Micro Machining: We provide micro machining service.

Logo: We accept custom logo.

Tolerance: Our 3D printing product can reach 0.01-0.05mm tolerance.

Model Number: We offer customer specific prototype model.

### Features:

Product Name: SLA SLS 3D Printing

Model Number: Custom Prototype Model

Micro Machining or Not: Micro Machining

Product name: Custom Prototype Model 3D Printing

Color: Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber

Material: Photosensitive Resins

Industrial SLA 3D Printer

3D Printing Titanium Alloy

3D Printing Post Processing Machines

### Technical Parameters:

| Product Name                       | Technical Parameters                                                         |
|------------------------------------|------------------------------------------------------------------------------|
| Custom Prototype Model 3D Printing | Brand Name: Shenzhen Industrial Man                                          |
|                                    | Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)                                    |
|                                    | Tolerance: 0.01-0.05mm                                                       |
|                                    | Color: Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber |
|                                    | Material: Photosensitive Resins                                              |
|                                    | MOQ: 1 Piece                                                                 |
|                                    | Certification: ISO 9001:2015                                                 |
|                                    | Micro Machining or Not: Micro Machining                                      |
|                                    | Logo: Accept Custom Logo                                                     |
|                                    | 3D Printing Titanium Alloy                                                   |
|                                    | 3D Lenticular Printing Service                                               |
|                                    | 3D Printing Rapid Prototyping Services                                       |

### Applications:

Industrial Man Custom Prototype Model 3D Printing offers a wide range of applications and scenarios with its high precision, photosensitive resins, engineering plastics, metals, ceramics, and rubber. This 3D printing technology provides industry leading tolerance of 0.01-0.05mm, and is certified by ISO 9001:2015. With this 3D printing technology, titanium alloy and industrial resin 3D printing can be achieved in a cost effective way. Industrial SLA 3D printer and industrial SLS 3D printer can also be used to create custom prototypes with high accuracy and precision. Industrial Man Custom Prototype Model 3D Printing technology is the perfect choice for any industry looking for reliable and cost effective 3D printing solutions.

### Customization:

Shenzhen Industrial Man Custom Prototype Model 3D Printing

Brand Name: Shenzhen Industrial Man

Model Number: Custom Prototype Model

Place of Origin: Guangdong, China

Logo: Accept Custom Logo

Product name: Custom Prototype Model 3D Printing

Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)

Shenzhen Industrial Man provides high-quality custom 3D printing services using its professional industrial SLA 3D printer. Our custom 3D printing services specialize in 3D printing titanium alloy for your specific needs.

### Support and Services:

SLA/SLS 3D Printing Technical Support and Service

We offer technical support and service for SLA/SLS 3D printing, including but not limited to:

Troubleshooting 3D printing problems

Consulting on 3D printing materials and processes

Providing 3D printing solutions and recommendations

Advising on the use of 3D printing for prototyping and production

Supporting software and hardware customization

Assisting with maintenance and repair

Our team is available to answer your questions and provide assistance with SLA/SLS 3D printing.

### Packing and Shipping:

Packaging and Shipping for SLA SLS 3D Printing:

All items purchased from SLA SLS 3D Printing will be packaged in secure cardboard boxes and shipped via USPS or UPS in the continental US. International orders will be shipped via USPS or FedEx.

Items ordered will be packaged and shipped within 1-3 business days of purchase. Delivery times may vary depending on the location and the carrier.

If you experience any issues with your order, please contact us immediately so that we can resolve the issue quickly and efficiently.

### FAQ:

SLA SLS 3D Printing

Q&A

**Q:** What is the Brand Name of the SLA SLS 3D Printing?

**A:** The Brand Name is Industrial Man.

**Q:** What is the Model Number of the SLA SLS 3D Printing?

**A:** The Model Number is OEM.

**Q:** Where is the Place of Origin of the SLA SLS 3D Printing?

**A:** The Place of Origin is Guangdong, China.

**Q:** What are the advantages of the SLA SLS 3D Printing?

**A:** SLA SLS 3D Printing provides fast and accurate prototypes with complex geometries, high resolution and smooth surface finish.

**Q:** What materials can be used for SLA SLS 3D Printing?

**A:** SLA SLS 3D Printing materials include ABS, PLA, nylon, polycarbonate, and rubber-like materials.
