

Commercial Resin SLA SLS 3D Printing Miniatures Customized

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Shenzhen Industrial Man
- Certification: ISO 9001:2015
- Model Number: Custom Prototype Model
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Size: Customer's 3D Drawing
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Product Name: Custom Prototype Model 3D Printing
- Tolerance: 0.01-0.05mm
- Micro Machining Or Not: Micro Machining
- Highlight: **Commercial SLA SLS 3D Printing,
Customized SLA SLS 3D Printing,
SLA resin printing miniatures**

Product Description

Product Description:

Our Product Introduction

Shenzhen Industrial Man offers industrial plastic 3D printing and 3D lenticular printing services, with a minimum order quantity of 1 piece. Our industrial resin 3D printer is capable of producing highly complex 3D parts of any size, based on customers' 3D drawings. Our photosensitive resins are ideal for micro-machining, and deliver superior results, making us the leader in the 3D printing industry. Our 3D printing services are ideal for industrial and commercial clients who require complex parts with precision engineering. We specialize in 3D lenticular printing, which is a highly specialized technique that produces stunning 3D images. Our industrial plastic 3D printer is capable of producing parts with a high degree of accuracy and detail, making it the perfect choice for those who need intricate parts.

At Shenzhen Industrial Man, we are committed to providing our customers with the best 3D printing services available. Our 3D printing solutions are designed to meet the highest standards of quality, while providing a cost-effective and efficient way to produce parts with remarkable accuracy. We provide our customers with a wide range of materials, ranging from photosensitive resins to industrial plastic, so that you can select the perfect material for your project.

We are proud to be the leading provider of industrial plastic 3D printing and 3D lenticular printing services. With our state-of-the-art equipment and experienced team of professionals, we can deliver the highest quality parts, with the highest degree of accuracy and detail. Our industrial resin 3D printer is capable of producing parts with the highest level of precision, allowing us to create parts with amazing complexity and detail.

Features:

Product Name: SLA SLS 3D Printing
Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
Model Number: Custom Prototype Model
Tolerance: 0.01-0.05mm
Logo: Accept Custom Logo
3D Lenticular Printing Service
Industrial Plastic 3D Printer
Custom 3D Printing Services

Technical Parameters:

Technical Parameters	Details
Product Name	Custom Prototype Model 3D Printing
MOQ	1 Piece
Micro Machining or Not	Micro Machining
Size	Customer's 3D Drawing
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Tolerance	0.01-0.05mm
Logo	Accept Custom Logo
Brand Name	Shenzhen Industrial Man
Material	Photosensitive Resins
Color	Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber
Main Services	Custom 3D Printing Services, Industrial Plastic 3D Printer, 3D Printing Rapid Prototyping Services

Applications:

Industrial Man OEM Custom Prototype Model 3D Printing

Industrial Man's OEM custom prototype model 3D printing service is the perfect way to bring your ideas and designs to life. Our advanced 3D printing technology utilizes photosensitive resins and engineering plastics, metals, ceramics, and rubber to create high-quality components and products. We are ISO 9001:2015 certified, guaranteeing that each product meets our rigorous standards.

Our 3D printing services are suitable for a wide variety of applications, from creating long-lasting titanium alloy parts and tools to producing intricate post-processing machines. Our state-of-the-art 3D printing technology allows us to create complex designs with precision, accuracy, and repeatability, making it the ideal choice for industries such as automotive, aerospace, medical, and more. Our 3D printing services provide the perfect solution for prototyping and low-volume production. We specialize in creating custom parts and products that can be used in a wide range of applications. Our team of experienced engineers can work with you to create a solution that meets your exact requirements.

Whether you're looking for a solution for prototyping, low-volume production, or post-processing machines, Industrial Man's 3D printing services are the perfect choice. Our advanced 3D printing technology ensures high-quality components and products with unrivaled accuracy and repeatability. Contact us today to learn more about how we can help you bring your ideas and designs to life.

Customization:

Shenzhen Industrial Man OEM 3D Printing Custom Service

Brand Name: Shenzhen Industrial Man
Model Number: OEM
Place of Origin: Guangdong, China
Logo: Accept Custom Logo
MOQ: 1 Piece
Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
Material: Photosensitive Resins
3D Printing Titanium Alloy
3D Printing Post Processing Machines
3D Lenticular Printing Service

Support and Services:

SLA SLS 3D Printing Technical Support and Service

We provide technical support and service for SLA SLS 3D Printing. Our support staff is available to answer your questions, provide guidance, and assist with troubleshooting. We are committed to providing the highest quality technical support and service to our

customers.
We provide:
Phone and email support
On-site technical assistance
Installation and configuration services
Troubleshooting and repair services
Software updates and bug fixes
If you have any questions, please do not hesitate to contact us. We are here to help!

Packing and Shipping:

Packaging and Shipping for SLA SLS 3D Printing:
We use robust packaging to ensure that your 3D printing product is secure and protected during transit. The exterior packaging is designed to protect against damage from handling and environmental conditions. The interior packaging is designed to ensure that the 3D printing product is held securely in place and is not damaged during transit.
We also take extra steps to ensure that your 3D printing product is packaged correctly for international shipping. We use a combination of cushioning materials and proper packaging materials to ensure that your 3D printing product is not damaged during transit.
We also offer a variety of shipping options in order to meet your needs. We offer express shipping, standard shipping, and economy shipping. We also offer international shipping services.
If you have any questions about our packaging and shipping services, please do not hesitate to contact us.

FAQ:

SLA SLS 3D Printing

Q&A

Q1: What is the Brand Name of this product?

A1: The Brand Name of this product is Industrial Man.

Q2: What is the Model Number of this product?

A2: The Model Number of this product is OEM.

Q3: Where is the Place of Origin of this product?

A3: The Place of Origin of this product is Guangdong, China.

Q4: What kind of 3D Printing technology does this product use?

A4: This product uses SLA and SLS 3D Printing technologies.

Q5: What kind of products can this 3D Printing technology make?

A5: This 3D Printing technology can make complex models, custom parts, and functional prototypes.
