

Industrial IGES SLA 3D Printing House Model Service

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Shenzhen Industrial Man
- Certification: ISO9001:2015
- Model Number: Custom Prototype Model
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Micro Machining Or Not: Micro Machining
- Color: Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber
- Material: Photosensitive Resins
- Logo: Accept Custom Logo
- Tolerance: 0.01-0.05mm
- MOQ: 1 Piece
- Highlight: IGES 3d printing house model,
SLA 3d printing house model,
Industrial sla 3d printing service

Product Description

Product Description:

Our Pr

SLA SLS 3D Printing is a rapid prototyping service that offers superior tolerance, size, drawing format, and micro machining capabilities. Our service has a range of 0.01-0.05mm tolerance, and the size of the product can be customized according to customer's 3D drawing. The drawing format supported by our service includes 2D/PDF/CAD as well as 3D IGES/STEP. We also provide micro machining capability for small and intricate parts. And the MOQ of our service is 1 piece. Our 3D printing rapid prototyping services and 3D printing post processing machines are reliable, efficient and capable of meeting customers' demands.

Features:

Product Name: SLA SLS 3D Printing
Certification: ISO 9001:2015
Size: Customer's 3D Drawing
Product name: Custom Prototype Model 3D Printing
Brand Name: Shenzhen Industrial Man
Tolerance: 0.01-0.05mm
3D Printing Rapid Prototyping Services
Industrial SLA 3D Printer
Industrial Plastic 3D Printer
CNC Machining Prototype

Technical Parameters:

Property	Value
Certification	ISO 9001:2015
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Brand Name	Shenzhen Industrial Man
Micro Machining or Not	Micro Machining
Product name	Custom Prototype Model 3D Printing
Color	Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber
Logo	Accept Custom Logo
Model Number	Custom Prototype Model
MOQ	1 Piece
Tolerance	0.01-0.05mm
3D Printing Titanium Alloy	Yes
Industrial Resin 3D Printer	Yes
3D Printing Post Processing Machines	Yes

Applications:

Shenzhen Industrial Man's SLA SLS 3D Printer is a perfect choice for a wide range of industrial and commercial applications. It is designed for rapid prototyping and custom prototype model production, making it ideal for rapid product development and testing. It is equipped with a micro machining system that can produce very precise parts with a high degree of accuracy. Furthermore, it can be customized with a customer's 3D drawing and logo, making it an ideal choice for custom applications. The advantages of Shenzhen Industrial Man's SLA SLS 3D Printer make it an excellent choice for industrial and commercial applications. It is capable of producing highly accurate parts with a greater level of detail than other 3D printers. It is also capable of producing parts with a high degree of precision and accuracy. Additionally, it can be customized with a customer's 3D drawing and logo, making it an ideal choice for custom applications. Shenzhen Industrial Man's SLA SLS 3D Printer is an excellent choice for industrial and commercial applications. It is designed to provide a reliable and cost-effective manufacturing solution for industrial plastic 3D printing, industrial resin 3D printing, and industrial resin 3D printer manufacturer. With its advanced micro machining system, it can produce highly accurate parts with a high degree of accuracy. Furthermore, it can be customized with a customer's 3D drawing and logo, making it an ideal choice for custom applications. As an industrial resin 3D printer manufacturer, Shenzhen Industrial Man is a trusted name in the industry.

Customization:

Industrial SLA 3D Printing Customization Service
We offer customized service for Industrial SLA 3D Printing, with the following features:
Brand Name: Industrial Man
Model Number: Custom Prototype Model
Place of Origin: Guangdong, China
Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
MOQ: 1 Piece
Tolerance: 0.01-0.05mm
Logo: Accept Custom Logo
3D Printing Titanium Alloy
Industrial Plastic 3D Printer
Our team is ready to provide you with the best service in Industrial SLA 3D printing, contact us to get your custom made product!

Support and Services:

SLA/SLS 3D Printing Technical Support and Service
Assessing 3D printing projects to determine if SLA/SLS 3D printing is the best solution
Providing guidance for selecting the best 3D printing process for a project
Assisting with file preparation and 3D printing setup
Providing technical support for 3D printing hardware and software
Assisting with 3D printing post-processing

Providing 3D printing maintenance and troubleshooting
Offering 3D printing training and education

Packing and Shipping:

Packaging and Shipping for SLA SLS 3D Printing:

We will package and ship the SLA SLS 3D Printing products in a secure and efficient manner. All products will be packaged in appropriate boxes or containers to ensure that they are not damaged during shipping. All products will be shipped with tracking numbers and delivery confirmation, so that customers can track their orders.

We will also ensure that all products are shipped in a timely manner, and that any orders that are delayed due to unforeseen circumstances are communicated to customers as soon as possible.

FAQ:

Q1: What is SLA SLS 3D Printing?

A: SLA SLS 3D Printing is a type of 3D printing technology used in Industrial Man 3D printing systems. It uses a laser to cure and solidify photosensitive resin layer by layer to create a 3D object.

Q2: What are the features of Industrial Man SLA SLS 3D Printing?

A: Industrial Man SLA SLS 3D Printing has several features, including high degree of accuracy, high resolution, fast printing speed, and good surface finish. It is also very easy to use and maintain.

Q3: What is the model number of Industrial Man SLA SLS 3D Printing?

A: The model number of Industrial Man SLA SLS 3D Printing is OEM.

Q4: Where is Industrial Man SLA SLS 3D Printing made?

A: Industrial Man SLA SLS 3D Printing is made in Guangdong, China.

Q5: What is the maximum size of objects that can be printed with Industrial Man SLA SLS 3D Printing?

A: The maximum size of objects that can be printed with Industrial Man SLA SLS 3D Printing depends on the specific model, but it is typically up to 200 x 200 x 200 mm.
