

Custom Polypropylene Plastic 3d Printing Aircraft Parts

Our Product Introduction

for more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: ISO9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Highlight: Custom polypropylene plastic 3d printing, polypropylene plastic 3d printing Aircraft Parts, Polypropylene 3d printing aircraft parts

Product Description

The process is :SLA 3D printing.

3D printing is a great way to create one-off parts or small batches, and can be used to create complex geometries that could not be realised using traditional manufacturing processes.

Advantages of 3D Printing

Our Product

- 1 Affordability: 3D printing uses only the required material and needs no tooling, it is one of the most affordable manufacturing processes for one-off parts or small batches.
- 2 geometries: trongse 3D printers create parts layer by layer using a computer-controlled nozzle, they can be used to create highly complex shapes, including complex interior geometries.
- 3 Efficiency: Once a part has been designed using CAD software, it can be printed in a matter of hours, without a lengthy setup procedure.
- 4 Adaptability: Because 3D printed parts require no tooling, there is less risk involved when creating a part. If a fault is discovered after printing, it can be amended digitally without the need to replace expensive tooling.
- 5 Environmental factors: Although 3D printers require power to operate, there is generally no material wastage involved. Subtractive processes like machining, on the other hand, produce waste material.

| | |
|--------------------|----------------------------------|
| Place of Origin | Guangdong, China |
| Brand Name | Industrial Man |
| Model Number | OEM |
| Material | ABS,PP,Plastic,POM,PMMA,Silicone |
| Packing | Carton Box+Wooden Box |
| MOQ | 1 Piece |
| Tolerance | 0.02-0.05mm |
| Certificate | ISO9001:2015 |
| Color | Customized Color |
| Application | Medical |
| Processing Service | SLS,SLA,FDM |
| Brand | Industrial Man |
| Size | Customer Designs |
