

Precision Lenticular Resin 3D Printing Service House Model

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Shenzhen Industrial Man
- Certification: ISO9001:2015
- Model Number: Custom Prototype Model
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Size: Customer's 3D Drawing
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- MOQ: 1 Piece
- Micro Machining Or Not: Micro Machining
- Material: Photosensitive Resins
- Tolerance: 0.01-0.05mm
- Highlight: House resin 3d printing service,
Lenticular resin 3d printing service,
Lenticular 3d printing house model

Product Description

Product Description:

Our Product Introduction

SLA SLS 3D Printing is a rapid prototyping service provider that offers high-quality 3D printing services. Our 3D printing services are tailored to meet the needs of our customers, including custom prototype models, 2D/3D drawing formats, custom logo printing, photosensitive resins, and titanium alloy materials. With our advanced 3D printing technology, we can provide 3D printing services with a tolerance range of 0.01-0.05mm. Our 3D printing services provide customers with accurate and reliable results, enabling them to quickly prototype custom products with a variety of materials, including titanium alloy, photosensitive resins, and more. SLA SLS 3D Printing is the perfect choice for customers who are looking for a reliable and cost-effective way to quickly prototype their innovative ideas and products.

Features:

Product Name: SLA SLS 3D Printing
 Size: Customer's 3D Drawing
 Certification: ISO 9001:2015
 Model Number: Custom Prototype Model
 Logo: Accept Custom Logo
 Micro Machining or Not: Micro Machining
 Specialization: 3D Lenticular Printing Service, Industrial SLA 3D Printer, 3D Printing Titanium Alloy

Technical Parameters:

Certification ISO 9001:2015
Model Number Custom Prototype Model
Size Customer's 3D Drawing
Drawing Format 2D/(PDF/CAD)3D(IGES/STEP)
Material Photosensitive Resins
Product Name Custom Prototype Model 3D Printing
Logo Accept Custom Logo
MOQ 1 Piece
Brand Name Shenzhen Industrial Man
Tolerance 0.01-0.05mm
Keywords Industrial SLA 3D Printer, Industrial Resin 3D Printer, Industrial Resin 3D Printer

Applications:

Industrial Man's Custom Prototype Model 3D Printing is a versatile technology that can be applied in a wide range of industries. It offers customers the advantage of having custom parts fabricated quickly and cost-effectively. With Industrial Man's rapid prototype 3D printing services, you can create custom parts from a wide variety of materials, including titanium alloys, photosensitive resins, engineering plastics, metals, ceramics, and rubber. Plus, Industrial Man's 3D printing rapid prototyping services offer micro machining capabilities for more intricate designs. Whether you need a single prototype or large-scale production runs, Industrial Man can help you meet all your 3D printing needs.

Customization:

SLA/SLS 3D Printing Customization Services from Industrial Man
 Industrial Man specializes in custom 3D printing services, using industrial SLA/SLS 3D printers. Our custom prototype model is designed with photosensitive resins, engineering plastics, metals, ceramics, and rubber, and built to the customer's 3D drawing. All drawing formats are accepted, including 2D/PDF/CAD, 3D/IGES/STEP.
 Our Industrial Plastic 3D Printer is specifically designed to produce high-quality and precise 3D models. With our Industrial SLA 3D Printer, we can create prototypes and end-use parts with excellent resolution, accuracy and surface finish.
 We provide fast turnaround times and cost-effective 3D printing services. We also offer a wide range of materials and colors. Contact us for more information about our custom 3D printing services.

Support and Services:

SLA SLS 3D Printing Technical Support and Services
 We provide a comprehensive range of technical support and services for our SLA SLS 3D Printing products. Our team is available to assist with any questions or inquiries you may have regarding installation, operation, and maintenance of your 3D Printing system.
 Installation and setup of your 3D Printing system.
 Troubleshooting and diagnostics of issues.
 Consultation and advice on best practices.
 Upgrades and updates to ensure your system is up-to-date.
 Providing replacement parts when required.
 We strive to provide the best customer service and technical support possible. If you have any questions or need any assistance, please do not hesitate to contact us. We are here to help!

Packing and Shipping:

SLA SLS 3D Printing Packaging and Shipping:
 All SLA SLS 3D Printing orders will be securely packaged and shipped in a timely manner. We use bubble wrap, cardboard boxes, and other appropriate packaging and shipping materials to ensure the safe arrival of your order. We ship orders via UPS, FedEx, or USPS, depending on the size and weight of the order. We are also able to ship orders to international destinations.

FAQ:

Q: What is SLA SLS 3D Printing?
 A: SLA SLS 3D Printing is a technology that uses a laser to create three-dimensional objects from a digital model. It is a form of additive manufacturing technology.
 Q: What is the brand name of the product?
 A: The brand name of the product is Industrial Man.
 Q: What is the model number?
 A: The model number is OEM.
 Q: Where is the product made?
 A: The product is made in Guangdong, China.
 Q: What types of materials can be used with SLA SLS 3D Printing?

A: SLA SLS 3D Printing can be used with a variety of materials, including plastics, metals, and composites.
