

## Micro Machined Metal 3D Printing Service Titanium Alloy For Car Parts

Our Product Introduction

For more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Model Number: Customized
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Product Name: Metal 3D Printing Service
- OEM/ODM: OEM/ODM
- Material: ABS,Rubber,Plastic,Nylon
- Color: Natural Color
- Highlight: **Titanium Metal 3D Printing Service,  
Titanium Alloy Metal 3D Printing Service,  
Titanium 3d printed car parts**

### Product Description

**Product Description:**

Our Product

Industrial Man's Metal 3D Printing Service offers a wide range of customization options to meet your exact needs. Our OEM/ODM service is designed to give you the highest quality parts with natural coloring and a variety of drawing formats like 2D (PDF/CAD) and 3D (IGES/STEP). With our customized model number, you can find the perfect fit for your projects. Our 3D printing plastic parts, post processing machines and post processing machines provide great precision and accuracy to ensure your satisfaction. No matter the complexity of your project, our metal 3D printing service can provide you with the best solution.

### Features:

Product Name: Metal 3D Printing Service  
Brand Name: Industrial Man  
Material: ABS, Rubber, Plastic, Nylon  
Micro Machining or Not: Micro Machining  
OEM/ODM: OEM/ODM  
3D Printer Metal Filament  
Industrial Resin 3D Printer

### Technical Parameters:

| Attribute              | Description  |
|------------------------|--|
| Material               | ABS, Rubber, Plastic, Nylon  |
| Brand Name             | Industrial Man   |
| OEM/ODM                | OEM/ODM  |
| Micro Machining or Not | Micro Machining  |
| Place of Origin        | Guangdong, China   |
| Color                  | Natural Color  |
| Drawing Format         | 2D/(PDF/CAD)3D(IGES/STEP)  |
| Product name           | Metal 3D Printing Service  |
| Model Number           | Customized   |
| Keywords               | 3D Printing Titanium Alloy, 3D Printing Plastic Parts, Industrial Resin 3D Printer |

### Applications:

Industrial Man's Metal 3D Printing Service is a great solution for industrial and commercial companies looking for an efficient and cost-effective way to manufacture components. This service is ideal for producing complex plastic parts, post-processing 3D printing parts, and providing 3D printing services. With Industrial Man's Metal 3D Printing Service, you can achieve rapid prototyping with high degree of accuracy. The service is perfect for producing parts with high precision in a short time. It also allows for easy customizations and modifications with a variety of materials such as ABS, rubber, plastic and nylon.

The Metal 3D Printing Service offered by Industrial Man is user-friendly and can be operated with minimal technical expertise. It can be used to produce parts from a variety of drawing formats such as 2D/PDF/CAD and 3D/IGES/STEP. It also supports micro machining operations, making it perfect for producing complex parts and small components. The service is highly reliable and ensures consistently high-quality parts.

Industrial Man's Metal 3D Printing Service is a great choice for industrial and commercial companies who need to produce complex 3D printed parts quickly and with high precision. The service is designed to meet the highest quality standards and offers competitive prices. It is perfect for producing high-precision 3D printed parts, post-processing 3D printing parts, and providing 3D printing services.

### Customization:

#### Industrial Man Customized 3D Printing Plastic Parts Service

Brand Name: Industrial Man  
Model Number: Customized  
Place of Origin: Guangdong, China  
Material: ABS, Rubber, Plastic, Nylon  
Micro Machining or Not: Micro Machining  
OEM/ODM: OEM/ODM

#### Features:

High accuracy 3D printing plastic parts service  
High quality materials: ABS, rubber, plastic, nylon  
Customized size and design  
OEM/ODM services available

### Support and Services:

#### Metal 3D Printing Service Technical Support and Service

Our Metal 3D Printing Service provides technical support and service to ensure the highest level of printing quality and reliability. We have a team of highly skilled professionals who specialize in metal 3D printing. Our technical support staff is available to help with troubleshooting, installation, and maintenance of your 3D printing equipment.

Our technical support services include:

Installation and setup of 3D printing equipment  
Troubleshooting and maintenance of 3D printing equipment  
Advice and guidance on 3D printing materials and processes  
Consultation on 3D printing design and optimization  
Technical support for 3D printing software and hardware  
Assistance with product prototyping

We are committed to providing exceptional customer service and support for our Metal 3D Printing Service.

## Packing and Shipping:

Metal 3D Printing Service Packaging and Shipping:

The product is securely packaged with anti-static foam or bubble wrap.

It is then placed in an appropriate-sized box with cushioning around the outside of the product.

The box is then sealed and shipped via a reliable shipping provider.

Tracking information will be provided.

## FAQ:

Q. What is Industrial Man's Metal 3D Printing Service?

A. Industrial Man's Metal 3D Printing Service is an OEM 3D printing service for producing metal parts.

Q. What materials can be used with Industrial Man's Metal 3D Printing Service?

A. Industrial Man's Metal 3D Printing Service supports a wide range of metals such as aluminum, stainless steel, titanium, and more.

Q. What types of products can be produced with Industrial Man's Metal 3D Printing Service?

A. Industrial Man's Metal 3D Printing Service can be used to produce complex parts and components for a variety of industries, including automotive, aerospace, and medical.

Q. What is the turnaround time for Industrial Man's Metal 3D Printing Service?

A. The turnaround time for Industrial Man's Metal 3D Printing Service depends on the complexity of the part and the quantity requested. However, most orders are completed within 3 to 5 business days.

Q. What is the cost for Industrial Man's Metal 3D Printing Service?

A. The cost for Industrial Man's Metal 3D Printing Service depends on the complexity of the part and the quantity requested. Please contact us for a free quote.
