

Small FDM 2D 3D Printed Worm Gear Rapid Prototyping Customized

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: ISO9001:2015
- Model Number: Customized
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Product Name: Metal 3D Printing Service
- OEM/ODM: OEM/ODM
- Micro Machining Or Not: Micro Machining
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Material: ABS,Rubber,Plastic,Nylon
- Highlight: **FDM 3d printed worm gear,**
3d printed worm gear Prototyping,
FDM 3d printing small gears

Product Description

Product Description:

Our Product

Our Metal 3D Printing Service is an innovative technology that provides customers with cost-effective and reliable metal parts production solutions, delivering a range of benefits such as reduced lead times, improved accuracy, and enhanced design freedom. Our service supports a variety of drawing formats, including 2D/(PDF/CAD)3D(IGES/STEP), and provide customized model numbers to meet customer needs. We also offer post-processing services such as 3D printing post processing machines, 3d printer metal filaments, and 3D metal printing machines. Our metal 3D printing service is designed to deliver high precision and accuracy, and also offers great micro machining capabilities. We are based in Guangdong, China and are committed to providing the highest quality 3D printing services at competitive prices.

Features:

Product Name: Metal 3D Printing Service

OEM/ODM: OEM/ODM

Micro Machining or Not: Micro Machining

Material: ABS, Rubber, Plastic, Nylon, FDM 3D Printing Service, 3D Printing Plastic Parts, 3D Printing Post Processing Machines

Model Number: Customized

Technical Parameters:

Paramaters	Details
Place of Origin	Guangdong, China
Product Name	Metal 3D Printing Service
Model Number	Customized
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
OEM/ODM	OEM/ODM
Brand Name	Industrial Man
Micro Machining or Not	Micro Machining
Color	Natural Color
Material	ABS, Rubber, Plastic, Nylon
Industrial Resin 3D Printer	Yes
3D Printing Rapid Prototyping Services	Yes
3D Metal Printing Machine	Yes
3D Metal Printing Service	Yes

Applications:

Industrial Man's Metal 3D Printing Service is a versatile solution for creating complex and customized 3D objects with a variety of applications. Utilizing 3D printer metal filament, 3D printing post processing machines and 3D prototype printing services, this service offers an end-to-end 3D printing solution for customers from design to production. With Industrial Man's Metal 3D Printing Service, customers can create 3D objects from a variety of materials, including metals, plastics, and composites. The service is also available in a wide range of colors, a natural color, and is compatible with a variety of drawing formats including 2D/PDF/CAD 3D and IGES/STEP. Customers can also customize the process to meet their individual needs. This service is ideal for rapid prototyping and low-volume production of complex 3D parts. With its high precision and accuracy, Industrial Man's Metal 3D Printing Service is the perfect choice for projects where quality and reliability are paramount.

Customization:

Industrial Man Metal 3D Printing Service

Brand Name: Industrial Man

Model Number: Customized

Place of Origin: Guangdong, China

Material: ABS, Rubber, Plastic, Nylon

Color: Natural Color

Product name: Metal 3D Printing Service

Keywords: 3D Printing Titanium Alloy, 3d Printer Metal Filament, 3D Printing Titanium Alloy Filament

Support and Services:

Metal 3D Printing Service Technical Support and Service

Provide technical support and services for the Metal 3D Printing Service.

Provide customer support, product installation and maintenance.

Provide consultation and advice on the use and application of the Metal 3D Printing Service.

Provide training on the operation, maintenance and troubleshooting of the Metal 3D Printing Service.

Provide advice on the selection of materials, components and equipment for the Metal 3D Printing Service.

Provide support for the development of new products and services related to the Metal 3D Printing Service.

Provide technical assistance in the resolution of problems encountered when using the Metal 3D Printing Service.

Packing and Shipping:

The Metal 3D Printing Service has a robust packaging and shipping process. We use a combination of high-quality, recyclable materials and specialized packing techniques to ensure products are adequately protected from any potential harm during the delivery process.

Our packaging process includes:

Carefully wrapping each product individually with bubble wrap.

Placing the wrapped product in a sturdy cardboard box.
Using foam inserts to cushion the product from potential impacts during shipping.
Securing the box with packing tape and labeling the box with the recipient's shipping address.
Once the package is ready for shipment, we partner with reliable shipping carriers to ensure the product is delivered safely and on time.
All shipments are tracked, and customers are sent a tracking number to monitor the progress of their delivery.

FAQ:

Q&A about Industrial Man OEM 3D Printing Service

Q: What kind of materials can Industrial Man 3D Printing Service handle?

A: Industrial Man 3D Printing Service can handle a wide range of materials, including metals, plastics, composites and ceramics.

Q: What types of processes does Industrial Man 3D Printing Service provide?

A: Industrial Man 3D Printing Service provides a variety of 3D printing processes, including Laser Sintering, Binder Jetting, Stereolithography, Fused Deposition Modelling, and Direct Metal Laser Sintering.

Q: What is the maximum size that Industrial Man 3D Printing Service can handle?

A: The maximum size of parts that Industrial Man 3D Printing Service can handle depends on the process used. Laser Sintering is capable of producing parts up to 1000mm x 1000mm x 1000mm.

Q: How accurate are the parts produced by Industrial Man 3D Printing Service?

A: Industrial Man 3D Printing Service can produce parts with an accuracy of +/- 0.1mm.

Q: How long does it take to complete a 3D printing job with Industrial Man 3D Printing Service?

A: The time required to complete a 3D printing job with Industrial Man 3D Printing Service depends on the size and complexity of the parts. Generally, small parts can be completed in 1-2 days, while larger parts may take up to several weeks.
