

PLA Plastic 3D Printing Prototype High Precision Custom Model

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: ISO9001:2015
- Model Number: Custom Prototype Model
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- MOQ: 1 Piece
- Color: Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber
- Product Name: Custom Prototype Model 3D Printing
- Tolerance: 0.01-0.05mm
- Material: Photosensitive Resins
- Logo: Accept Custom Logo
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Highlight: Custom PLA 3d printing prototype, Plastic 3d printing prototype, Custom pla plastic 3d printing

Product Description

Product Description:

Our Product Introduction

SLA SLS 3D Printing is a high-end custom 3D printing service that specializes in the production of parts made from titanium alloys and other materials with photosensitive resin. Our 3D printing services offer customers a unique solution for producing custom parts with their own logo, size, and model number. We accept 2D/3D drawings in PDF/CAD format as well as IGES/STEP format. Our 3D printing services enable customers to quickly and cost-effectively create custom prototype models for a variety of 3D printing applications. Our SLA SLS 3D Printing services offer superior accuracy and surface finish, and our team of expert technicians are dedicated to providing the highest quality product with the fastest turnaround time. Our 3D printing services are designed to meet the specific needs of our customers, allowing them to customize their 3D printing needs with our range of materials, sizes, and models. We are committed to providing our customers with the most advanced 3D printing technologies, guaranteeing accuracy, precision, and reliability with each 3D printing project.

We understand that 3D printing is becoming increasingly popular in many industries, and our SLA SLS 3D Printing services provide customers with the ability to create custom parts that meet their exact specifications. We are dedicated to providing the highest quality products at the most competitive prices, and to make sure that our customers are always satisfied with their purchase. With our custom 3D printing services, customers can expect to receive the highest quality parts with the highest level of accuracy and precision.

Features:

Product Name: SLA SLS 3D Printing
 Material: Photosensitive Resins
 Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
 Tolerance: 0.01-0.05mm
 Brand Name: Shenzhen Industrial Man
 Model Number: Custom Prototype Model
 3D Printing Post Processing Machines
 3D Lenticular Printing Service
 3D Printing Post Processing Machines
 3D Printing Services

Technical Parameters:

Parameter	Value
Logo	Accept Custom Logo
Product name	Custom Prototype Model 3D Printing
Material	Photosensitive Resins, Titanium Alloy, Engineering Plastics, Metals, Ceramics, Rubber
Size	Customer's 3D Drawing
Color	Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber
Model Number	Custom Prototype Model
Tolerance	0.01-0.05mm
Brand Name	Shenzhen Industrial Man
Certification	ISO 9001:2015
Micro Machining or Not	Micro Machining
Service	Custom 3D Printing Services, 3D Printing Rapid Prototyping Services

Applications:

Industrial Man's Custom Prototype Model 3D Printing is the perfect solution for many industrial applications, offering a comprehensive range of 3D printing post processing machines. This 3D printing technology is built using the latest industrial resin 3D printer, allowing for accurate and detailed 3D printed models with tolerances of 0.01-0.05mm. The 3D printing post processing machines make it easy to take CAD or PDF drawings and turn them into a tangible 3D prototype. The 3D printing post processing machines have the capability to process a variety of sizes and shapes, so you can produce custom 3D printed parts with precision. Micro machining is also available for those who require greater detail and accuracy. Industrial Man's Custom Prototype Model 3D Printing is a great choice for creating a variety of 3D prototypes quickly and easily.

Customization:

Industrial SLA 3D Printer by Industrial Man – OEM 3D Printing Rapid Prototyping Services

Industrial Man offers a full line of 3D Printing Rapid Prototyping Services and 3D Printing Post Processing Machines. Our Industrial SLA 3D Printer is designed to meet all your custom prototype model 3D printing needs.

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Size: Customer's 3D Drawing

Certification: ISO 9001:2015

Material: Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber

Product name: Custom Prototype Model 3D Printing

Color: Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber

Industrial Man provides a comprehensive suite of 3D Printing Rapid Prototyping Services and 3D Printing Post Processing Machines for custom prototype model 3D printing. We offer a variety of photosensitive resins, engineering plastics, metals, ceramics, and rubber to make your custom prototype 3D printing project a success.

Our Industrial SLA 3D Printer is ISO 9001:2015 certified and designed to meet all your custom prototype model 3D printing needs. Our experienced team of 3D Printing Rapid Prototyping Services and 3D Printing Post Processing Machines are here to help you with your custom prototype model 3D printing project.

Support and Services:

SLA SLS 3D Printing Technical Support & Service

We are proud to offer technical support and service for our SLA SLS 3D printing product. Our team of experienced and knowledgeable technicians are here to help you with any issues you may be having with your 3D printing projects.

We offer a variety of services for our SLA SLS 3D printing product, including:

- Troubleshooting and repair services
- Software updates and upgrades
- Calibration and maintenance services
- Hardware replacements and upgrades
- User education and training

We also provide technical support via email, phone, and live chat. Our technicians are always available to help you with any questions or concerns you may have regarding your SLA SLS 3D printing product.

Packing and Shipping:

Packaging and Shipping for SLA SLS 3D Printing:

The product will be packaged with a cardboard box to ensure that it arrives to its destination safely. The box must have adequate cushioning materials included to protect the product from any potential shock or vibration. The box must be sealed securely with tape to prevent any damage or tampering during transit.

The shipping method will depend upon the destination. For domestic shipments, the product will be shipped via a reliable courier service such as FedEx or UPS. For international shipments, the product will be shipped via a reliable international courier such as DHL or TNT.

The product will be shipped with a tracking number so that the customer can track the progress of their shipment.

FAQ:

Q: What is SLA SLS 3D Printing?

A: SLA SLS 3D Printing is a form of precision 3D printing technology that uses a laser to cure a liquid resin to create complex parts with high accuracy and detail.

Q: What brand of SLA SLS 3D Printing does Industrial Man provide?

A: Industrial Man provides OEM SLA SLS 3D Printing.

Q: Where is the Industrial Man SLA SLS 3D Printing manufactured?

A: Industrial Man SLA SLS 3D Printing is manufactured in Guangdong, China.

Q: What materials can be used with SLA SLS 3D Printing?

A: SLA SLS 3D Printing can be used with a variety of materials, including resins, metals, and plastics.

Q: What is the accuracy of Industrial Man SLA SLS 3D Printing?

A: Industrial Man SLA SLS 3D Printing is capable of producing parts with high accuracy and detail.
