

ISO 9001 Red Dragon 3d Print SLA 3D Printing Service OEM

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: ISO 9001:2015
- Model Number: Custom Prototype Model
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Product Name: Custom Prototype Model 3D Printing
- Size: Customer's 3D Drawing
- Tolerance: 0.01-0.05mm
- Micro Machining Or Not: Micro Machining
- Color: Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber
- Highlight: **SLA red dragon 3d print,**
OEM red dragon 3d print,
OEM sla 3d printing service

Product Description

Product Description:

SLA SLS 3D Printing

SLA SLS 3D Printing is a custom prototype model 3D printing technology that is capable of producing a wide range of products. It is able to produce parts of different sizes and shapes according to a customer's 3D drawing. It also allows for custom logos to be added to the parts, and can use photosensitive resins, engineering plastics, metals, ceramics and rubber for the color and material of the parts. It is an ideal solution for producing customized parts for industrial applications, thanks to its 3D printing post-processing machines, industrial plastic 3D printer and industrial resin 3D printer.

Features:

Product Name: SLA SLS 3D Printing

Size: Customer's 3D Drawing

Certification: ISO 9001:2015

Color: Photosensitive Resins, Engineering Plastics, Metals, Ceramics, Rubber

Material: Photosensitive Resins

Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)

Specialized Service: 3D Lenticular Printing Service, Industrial Resin 3D Printer, 3D Lenticular Printing Services

Technical Parameters:

Name	Parameter
MOQ	1 Piece
Material	Photosensitive Resins
Model Number	Custom Prototype Model
Micro Machining or Not	Micro Machining
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Logo	Accept Custom Logo
Tolerance	0.01-0.05mm
Size	Customer's 3D Drawing
Certification	ISO 9001:2015
Product name	Custom Prototype Model 3D Printing

Applications:

Industrial Man's custom prototype model 3D printing is an advanced manufacturing process that brings precision and affordability to the production of parts and components. It uses photosensitive resins, engineering plastics, metals, ceramics, and rubber to create intricate, detailed products with a high level of accuracy and repeatability. The materials used by Industrial Man's 3D printing process offer superior strength and durability, making them an ideal choice for industrial applications. With its ISO 9001:2015 certification, Industrial Man's 3D printing process provides assurance that the products produced are of the highest quality. The company's 3D printing process is fast and efficient, with a turnaround time of only a few days for most projects. Industrial Man's 3D printing process can accept a variety of drawing formats including 2D/PDF/CAD and 3D/IGES/STEP. This makes it easy for customers to upload their 3D designs and have them printed quickly and accurately. Industrial Man's 3D printing process is perfect for creating prototypes, complex parts, and one-off components. The industrial resin 3D printer, industrial SLA 3D printer, and industrial plastic 3D printer make it easy for customers to create the products they need with the highest level of precision.

Customization:

Customized Service for SLA SLS 3D Printing

Brand Name: Shenzhen Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

MOQ: 1 Piece

Material: Photosensitive Resins

Logo: Accept Custom Logo

Micro Machining or Not: Micro Machining

We specialize in Industrial Plastic 3D Printer, 3D Printing Titanium Alloy and Industrial SLA 3D Printer.

Support and Services:

SLA SLS 3D Printing Technical Support and Service

Our company provides technical support and service for SLA SLS 3D printing products. We offer the following services:

Full product support. Our technical staff can provide detailed information and instructions about how to use our products.

Software updates. We will keep our software up-to-date and provide timely updates.

Troubleshooting. We will offer assistance in troubleshooting any issues with our products.

Maintenance. We will provide maintenance and repair services for our products.

Warranty. We offer a warranty for all our products.

If you have any questions or need assistance with our products, please feel free to contact us. We are here to help.

Packing and Shipping:

Packaging and Shipping for SLA SLS 3D Printing:

We will package and ship your SLA SLS 3D Printing order in a durable, moisture-resistant box filled with protective materials. Our shipping methods include USPS, FedEx, and UPS. We guarantee your package will arrive in perfect condition.

FAQ:

Q1. What is SLA SLS 3D Printing?

A1. SLA SLS 3D Printing is a 3D printing technology that uses a laser beam to melt and solidify a liquid resin. It is a type of additive manufacturing process that can produce highly accurate and detailed objects.

Q2. What is Industrial Man's Model Number?

A2. Industrial Man's Model Number is OEM.

Q3. Where is Industrial Man's Place of Origin?

A3. Industrial Man's Place of Origin is Guangdong, China.

Q4. What materials can be used for SLA SLS 3D Printing?

A4. SLA SLS 3D Printing can use a variety of materials, including plastic, metal, and ceramic.

Q5. What are the advantages of SLA SLS 3D Printing?

A5. SLA SLS 3D Printing offers high resolution, good accuracy, and a wide range of materials that can be used. It also offers a fast and cost-effective way to produce complex objects.
