Our Product Introduction

PLA ABS Plastic 3D Printing Service For Medical Parts CNC Machining

Basic Information

• Place of Origin: Guangdong, China • Brand Name: Industrial Man ISO 9001:2015 · Certification: • Model Number: Customized 1PC • Minimum Order

Quantity:

• Price: Negotiable

• Packaging Details: As the requirement of customer

• Delivery Time: 7-15 work days

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

100000Pcs/ Month • Supply Ability:

Product Specification

• Micro Machining Or Not: Micro Machining

• Color: Natural Color

• Product Name: Rubber Model For Medical Parts Medical

Mold Part

Plastic 3D Printing Service • Service:

• Highlight: CNC ABS Plastic 3D Printing Service,

CNC PLA Plastic 3D Printing Service,

Medical pla abs 3d printing

Product Description

We provide Plastic 3D Printing Service for Rubber Model For Medical Parts Medical Mold Part. Our advanced 3D printing technology enables us to manufacture customized parts with precision and accuracy. We use high-grade ABS, Rubber, Plastic and Nylon materials to enable our customers to create complex and intricate designs with high-precision micro machining. The parts produced by our Plastic 3D Printing Service have a natural color and no MOQ is required. Customers can easily use our Plastic 3D Printing Service to create 3D models for their unique medical parts and products.

Features:

Product Name: Plastic 3D Printing Service

Model Number: Customized Tolerance: 0.01-0.05mm Color: Natural Color MOQ: 1 Piece

Service: Rapid Plastic Prototyping, Plastic Prototype Manufacturing, 3D Manufacturing Processes

Technical Parameters:

Applications:

Industrial Man 3D Printing Service: Delivering Rapid Plastic Prototyping Solutions

Industrial Man's 3D Printing Service provides rapid plastic prototyping solutions for a variety of industries and applications. Our 3D printing technology allows us to quickly produce prototypes with a high degree of accuracy, precision and quality. With our advanced 3D printing technology, we can produce parts with a tolerance range of 0.01-0.05mm, and in natural color.

Industrial Man's 3D Printing Service is customizable to fit your specific needs, and can be used for a variety of applications, such as product development, prototyping, and small-scale production. Our 3D printing solutions can be used to quickly produce plastic prototypes for medical, automotive, industrial, and consumer products.

We understand that the prototyping process is an important part of product development and design, and we are committed to providing our customers with the highest quality 3D printing solutions. Our 3D printing technology is reliable, cost-effective, and can quickly produce plastic prototypes to help you bring your ideas to life.

Customization:

Industrial Man offers Plastic 3D Printing Service with a range of 3D manufacturing processes, plastic prototype manufacturing, and 3D printing solutions. Our 3D printing services can provide you with the highest quality products, with a brand name of Industrial Man, model number OEM, place of origin from Guangdong, China, and ISO 9001:2015 certification. Our services are incredibly accurate, with a tolerance of 0.01-0.05mm, and we can accommodate any color, including natural color. We are also capable of providing micro machining services.

Support and Services:

Plastic 3D Printing Service offers technical support and service to customers who purchase and use our products. Our technical support team is available to answer any questions or concerns you may have regarding our 3D printing technology. We also provide online tutorials and resources to help you understand the technology and get the most out of your 3D printing experience. Additionally, our customer service team is available to provide personalized assistance and guidance with any issues you may have.

Packing and Shipping:

Plastic 3D Printing Service Packaging and Shipping:

The 3D-printed items will be carefully packaged and shipped in a box with protective material to ensure that they arrive to you in perfect condition.

FAQ:

Q&A about Industrial Man OEM Plastic 3D Printing Service

Q1. What is Industrial Man OEM Plastic 3D Printing Service?

A1. Industrial Man OEM Plastic 3D Printing Service is a 3D printing service that uses high-grade plastics to provide custom, precision parts for industrial applications. It is produced in Guangdong, China and is of the highest quality.

Q2. What materials are used for Industrial Man OEM Plastic 3D Printing Service?

A2. Industrial Man OEM Plastic 3D Printing Service uses high-grade plastics to produce custom parts with precise dimensions and high durability. These plastics include ABS, PLA, Nylon, PEEK, and others.

Q3. What advantages does Industrial Man OEM Plastic 3D Printing Service offer?

A3. Industrial Man OEM Plastic 3D Printing Service offers several advantages, including precision parts with complex shapes, cost savings due to reduced production times, and greater design flexibility.

Q4. What applications are suitable for Industrial Man OEM Plastic 3D Printing Service?

A4. Industrial Man OEM Plastic 3D Printing Service is suitable for a wide range of industrial applications, including automotive, aerospace, medical, and consumer products.

Q5. What is the lead time for Industrial Man OEM Plastic 3D Printing Service?

A5. The lead time for Industrial Man OEM Plastic 3D Printing Service depends on the complexity of the parts and the amount of material needed. Generally, lead times range from one week to one month.
