

## Odm Aluminum Precision Sheet Metal Stamping For Medical Industry

Our Product Introduction

For more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Keyword: OEM Precision Sheet Metal Fabrication
- Tolerance: 0.01-0.05mm
- Application: Industry, Automotive, Medical, Motorcycle
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Certificate: ISO9001:2015
- MOQ: 1 PCS
- Highlight: **Medical Industry Precision Sheet Metal Stamping**  
**, odm Precision Sheet Metal Stamping,**  
**Odm aluminum sheet metal stamping**

### Product Description

Product Description:

Our Product

Precision Sheet Metal Stamping is a metal forming process that involves deforming metal into various shapes and sizes according to customer requirements. This process is performed by taking a sheet of metal and bending it into a desired shape or size. This process is also known as metal bending or sheet metal forming. It is a highly efficient and cost-effective way to produce complex metal parts and components. Our precision sheet metal stamping services include the production of sheet metal parts and components according to customer requirements. We use the latest technologies and techniques to ensure that our products meet the highest standards of quality. Our experienced team of professionals is highly skilled in creating intricate shapes and sizes with precision and accuracy. We also provide custom metal stamping services to meet specific customer requirements.

We offer a wide range of sheet metal stamping services, including stamping, forming, piercing, and riveting. We also offer custom metal stamping services to meet customer needs. Our Metal Forming Process and Metal Bending Process are designed to produce complex components with precision and accuracy. Our services are available in a variety of materials including stainless steel, aluminum, and brass. The MOQ is 1 PCS, and the drawing formats include 2D/PDF/CAD and 3D/IGES/STEP.

We specialize in OEM Precision Sheet Metal Fabrication, and we guarantee the highest quality and reliability of our products. We are committed to providing our customers with the best possible service and products. Our team is dedicated to providing customer satisfaction through our quality products and services.

#### Features:

Product Name: Precision Sheet Metal Stamping  
Tolerance: 0.01-0.05mm  
Place of Origin: Guangdong, China  
Application: Industry, Automotive, Medical, Motorcycle  
Material: Stainless Steel, Aluminum, Alloy, ABS, Brass  
Model Number: OEM  
Metal Bending Process  
Sheet Metal Fabrication  
Metal Stamping Process

#### Technical Parameters:

Parameters	Specifications
Certificate	ISO9001:2015
Brand Name	Industrial Man
Specification	Customer Requirements Production
Drawing Format	2D/(PDF/CAD)3D(IGES/STEP)
Model Number	OEM
Place of Origin	Guangdong, China
Material	Stainless Steel, Aluminum, Alloy, ABS, Brass
Application	Industry, Automotive, Medical, Motorcycle
Minimum Order Quantity	1 PCS
Surface Treatment	Brushing, Planting, Sand Blasting, Wire
Process	Precision Metal Stamping, Metal Forming Process, Sheet Metal Fabrication

#### Applications:

Industrial Man is a leading manufacturer of precision sheet metal stamping services for a variety of industries. Our metal forming processes combines precision metal bending processes and high-quality materials such as stainless steel, aluminum, alloy, ABS and brass to create accurate and cost-effective parts quickly. We are ISO9001:2015 certified and provide custom manufacturing solutions to meet customer requirements. We specialize in metal bending, forming, stamping, welding, and assembly.

Precision sheet metal stamping from Industrial Man is ideal for a wide range of applications, including electronic, automotive, medical, and aerospace components. Our metal forming processes allow us to create the highest quality parts with intricate shapes, tight tolerances, and smooth surfaces. With our in-house tooling and design capabilities, we can quickly create prototype parts as well as production parts for high-volume runs. Our experienced engineers and technicians use advanced software to design parts with the highest accuracy in metal forming and stamping.

Whether you need a single part or a large volume of parts, Industrial Man can provide the precision sheet metal stamping services you need.

We take pride in our commitment to customer satisfaction and quality. Our highly-skilled team is able to work with different metal types, complex geometries, and tight tolerances to create the parts you need for any application. Contact us today to learn more about our precision sheet metal stamping services.

#### Customization:

Industrial Man OEM Precision Sheet Metal Stamping  
Brand Name: Industrial Man  
Model Number: OEM  
Place of Origin: Guangdong, China  
MOQ: 1 PCS  
Keyword: OEM Precision Sheet Metal Fabrication  
Tolerance: 0.01-0.05mm  
Application: Industry, Automotive, Medical, Motorcycle  
Certificate: ISO9001:2015

Metal Bending Process, Sheet Metal Fabrication, Metal Bending Process

Industrial Man offers OEM Precision Sheet Metal Stamping with metal bending process, sheet metal fabrication and metal bending process. Our products have high tolerance range from 0.01-0.05mm and are applied in industry, automotive, medical and motorcycle. All of our products can be custom designed to meet your specific needs and certified with ISO9001:2015.

#### Support and Services:

Precision Sheet Metal Stamping Technical Support & Services

At XYZ Inc., we provide comprehensive technical support and services for Precision Sheet Metal Stamping. Our experienced technicians are available to help you with any questions you may have about the product. We also offer on-site analysis and troubleshooting services to ensure that the machine is running properly.

We provide full technical documentation for the product, including diagrams, user manuals, and maintenance instructions. We also have a team of experts ready to answer any questions you may have about the product. They can provide advice on installation, maintenance, and

troubleshooting.

At XYZ Inc., our team of professionals is dedicated to providing the highest quality products and services. We are committed to providing the best customer service and technical support for Precision Sheet Metal Stamping.

#### **Packing and Shipping:**

Precision Sheet Metal Stamping Packaging and Shipping

Precision sheet metal stamping is typically packaged and shipped in the following ways:

Securely packaged with bubble wrap, foam inserts, or other cushioning material to ensure safe and secure transit.

Shipped via air, ground, or freight depending on the size and weight of the item.

Custom crating and shipping may be available on larger orders.

#### **FAQ:**

Q1: What is Precision Sheet Metal Stamping?

A1: Precision Sheet Metal Stamping is a process of forming parts from metal sheets by applying pressure with a stamping tool. The Industrial Man brand offers OEM sheet metal stamping services.

Q2: What are some of the advantages of Precision Sheet Metal Stamping?

A2: Precision Sheet Metal Stamping offers many advantages, including high production speeds, cost savings, repeatable accuracy, and a wide variety of shapes and sizes.

Q3: What materials can be used with Precision Sheet Metal Stamping?

A3: Industrial Man's Precision Sheet Metal Stamping services can be used with a variety of materials, including aluminum, steel, copper, brass, and titanium.

Q4: What is the maximum size for Precision Sheet Metal Stamping?

A4: Industrial Man's Precision Sheet Metal Stamping services can accommodate metal sheets up to 4 mm thick and 1,150 mm wide.

Q5: What is the lead time for Precision Sheet Metal Stamping?

A5: The lead time for Precision Sheet Metal Stamping depends on the complexity of the product and the quantity required, but typically ranges from 5-6 weeks.
