

ODM Stamped Aluminum Sheet Prototype Metal Stamping

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Surface Treatment: Brushing,Planting,Sand Blasting,Wire
- Application: Industry, Automotive, Medical, Motorcycle
- Tolerance: 0.01-0.05mm
- MOQ: 1 PCS
- Specification: Customer Requirements Production
- Material: Stainless Steel, Aluminum, Alloy, ABS, Brass
- Certificate: ISO9001:2015
- Highlight: **ODM stamped aluminum sheet ,
Prototype stamped aluminum sheet,
ODM prototype metal stamping**

Product Description

Product Description:

Our Product

Precision Sheet Metal Stamping is a metal forming process and metal pressing process that produces high-precision parts for various industries. It involves a series of steps, including drawing, cutting, bending, and forming, to form the desired part. We provide OEM service and ensure high quality and accuracy. Our products are certified to ISO9001:2015 standards, and we accept orders with a minimum quantity of 1 piece. Our CAD and PDF drawings are 2D and 3D IGES and STEP format, making us an ideal supplier for OEM precision sheet metal fabrication.

We specialize in precision metal stamping and metal forming processes to produce parts with tight tolerances and intricate details. Our products are well-known for their accuracy, consistency, and repeatability, making them the perfect choice for any industry. We use advanced technologies and sophisticated machinery to ensure the highest quality products and the most cost-effective solutions.

At our facility, we offer a wide range of services to meet the needs of our customers. We have the latest equipment and experienced staff to ensure that all parts meet the highest standards of quality and accuracy. With our commitment to quality and customer service, we are confident that we can provide the best solutions for your precision sheet metal fabrication needs.

Features:

Product Name: Precision Sheet Metal Stamping

Surface treatment: Brushing, Planting, Sand Blasting, Wire

Specification: Customer Requirements Production

Model Number: OEM

Material: Stainless Steel, Aluminum, Alloy, ABS, Brass

Application: Industry, Automotive, Medical, Motorcycle

Metal Pressing Process: Metal Stamping Process, Metal Bending Process

Technical Parameters:

Attributes	Values
Application	Industry, Automotive, Medical, Motorcycle
Surface treatment	Brushing,Planting,Sand Blasting,Wire
MOQ	1 PCS
Specification	Customer Requirements Production
Certificate	ISO9001:2015
Place of Origin	Guangdong, China
Keyword	OEM Precision Sheet Metal Fabrication
Brand Name	Industrial Man
Tolerance	0.01-0.05mm
Drawing format	2D/(PDF/CAD)3D(IGES/STEP)
Metal Pressing Process	Yes
Metal Bending Process	Yes
Sheet Metal Fabrication	Yes

Applications:

Industrial Man OEM Precision Sheet Metal Stamping

Industrial Man specializes in providing OEM precision sheet metal fabrication services. Our precision sheet metal stamping process is highly accurate and repeatable, with a tolerance of up to 0.01-0.05mm. Our metal forming process is certified to ISO 9001:2015 standards, offering clients a reliable and cost-effective solution for their sheet metal fabrication needs.

Our metal forming process involves using specialized tooling and equipment to shape metal sheets into desired shapes and forms. We can also create complex components with multiple bends and shapes. Our metal stamping process allows us to create components with extremely tight tolerances, making them suitable for a wide range of industries.

Our team is experienced in meeting clients' exact requirements with precision sheet metal stamping. We use the latest technology and best practices to ensure quality results and superior customer service.

For more information about our precision sheet metal fabrication services, please contact us today.

Customization:

Industrial Man OEM Precision Sheet Metal Stamping Service

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Surface treatment: Brushing,Planting,Sand Blasting,Wire

Tolerance: 0.01-0.05mm

Certificate: ISO9001:2015

Keyword: OEM Precision Sheet Metal Fabrication

Metal Bending Process

Precision Metal Stamping

Metal Stamping Process

Support and Services:

Precision Sheet Metal Stamping Technical Support and Service

We provide technical support and service for precision sheet metal stamping. Our experienced engineers and technicians can provide you with the best solutions to meet your stamping needs. We use the latest technologies and processes to ensure that our products meet the highest quality standards.

Our technical support and service includes:

Design and engineering consultation

Prototyping and testing

Production of high-precision components

Tooling and dies

Product and process validation

Troubleshooting

Product optimization

Training and education

We are committed to providing our customers with the best possible service and support for precision sheet metal stamping. We strive to exceed your expectations and ensure that your products are produced with the highest quality and accuracy.

FAQ:

Precision Sheet Metal Stamping Questions & Answers

Q: What is Precision Sheet Metal Stamping?

A: Precision sheet metal stamping is a process of forming metal parts from a flat sheet of metal by feeding it through a press and using a die and tool to produce the desired shape.

Q: What is the Brand Name of the Precision Sheet Metal Stamping?

A: The Brand Name of the Precision Sheet Metal Stamping is Industrial Man.

Q: What is the Model Number of the Precision Sheet Metal Stamping?

A: The Model Number of the Precision Sheet Metal Stamping is OEM.

Q: Where is the Precision Sheet Metal Stamping made?

A: The Precision Sheet Metal Stamping is made in Guangdong, China.

Q: What materials can Precision Sheet Metal Stamping be used for?

A: Precision Sheet Metal Stamping can be used for many different metals such as aluminum, stainless steel, copper, brass, and more.
