

ODM Medical Plastic Injection Molding Service Prototype Machining

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: Sheet Metal Automotive Stamping Machining
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-30 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Micro Machining Or Not: Micro Machining
- Surface Treatment: Polishining, Painting, Andozing, Silkscreen, Sandblasting, Texture
- Name: Plastic Injection Molding Service
- Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping
- Tolerance: 0.01
- Metal Material: Aluminum, Brass, Bronze, Copper, Steel...
- Highlight: **ODM Plastic Injection Molding Service, Prototype Plastic Injection Molding Service, Prototype medical plastic injection molding**

Product Description

Product Description:

Our Pr

Industrial Man offers a comprehensive Plastic Injection Molding Service for a wide range of plastic parts. Our service includes Injection Mold Tooling, High Precision Plastic Injection Molding, Custom Plastic Injection Molding and much more. We specialize in producing plastic parts of various sizes with exceptional detail and accuracy. Our service is tailored to meet your exact needs and specifications. We utilize the latest technologies for our injection molding processes. We use CNC Plastic/Metal Prototype Machining to ensure high precision and accuracy when it comes to the parts we produce. Our injection molding process allows us to produce plastic parts with a high degree of detail and accuracy. We are also able to use a variety of metal materials such as Aluminum, Brass, Bronze, Copper, Steel and many more.

Our Plastic Injection Molding Service is designed to meet your needs and specifications. We provide a high quality and cost-effective solution for your injection molding needs. Our team of experts is committed to providing you with the highest level of customer service and satisfaction. With our Plastic Injection Molding Service, you can rest assured that you will get the highest quality parts with exceptional detail and accuracy.

Features:

Product Name: Plastic Injection Molding Service

Name: Plastic Injection Molding Service

Application: Prototype Development, Low-Volume Production & Rapid Tooling

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping

Micro Machining or Not: Micro Machining

Service: CNC Plastic/Metal Prototype Machining, Custom Plastic Injection Mold, Custom Plastic Injection Mold, Injection Mold Tooling, Injection Molding Process

Technical Parameters:

Keyword	Value
Name	Plastic Injection Molding Service
Place of Origin	Guangdong, China
Application	Prototype Development, Low-Volume Production & Rapid Tooling
Model Number	Sheet Metal Automotive Stamping Machining
Surface Treatment	Polishing, Painting, Andozing, Silkscreen, Sandblasting, Texture
Color	Up To Your Decision
Metal Material	Aluminum, Brass, Bronze, Copper, Steel...
Brand Name	Industrial Man
Micro Machining or Not	Micro Machining
Injection Mold Engineering	Yes
Injection Mold Tooling	Yes
Custom Plastic Injection Molding	Yes

Applications:

Industrial Man's Plastic Injection Molding Service is a general purpose injection molding system that provides consistent and reliable performance. Thanks to its variational pressure and flow control, it is able to manufacture high-quality plastic parts with high repeatability. This system is perfect for a wide range of applications, including automotive, medical, electronics, consumer products, and many more. It is capable of producing parts from a wide range of materials, including ABS, PP, PE, POM, PEEK, PA, PC, etc. The system also provides a range of finishing options such as polishing, painting, anodizing, silkscreen, sandblasting, and texture.

Industrial Man's Plastic Injection Molding Service is the perfect choice for those who need a reliable, cost-effective, and efficient injection molding solution. It is designed to meet the highest standards of quality and accuracy, while providing excellent repeatability and overall performance. It is also backed by a team of experts who are ready to assist you with any questions or concerns you may have. With Industrial Man's Plastic Injection Molding Service, you can be sure that you are getting the highest quality product at the best possible price.

Customization:

Plastic Injection Molding Service

Industrial Man offers a complete line of Plastic Injection Molding services, from Injection Mold Engineering to General Purpose Injection Molding System for Automotive Parts.

Our Plastic Injection Molding services feature:

Brand Name: Industrial Man

Model Number: Sheet Metal Automotive Stamping Machining

Place of Origin: Guangdong, China

Surface treatment: Polishing, Painting, Andozing, Silkscreen, Sandblasting, Texture

Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping

Application: Prototype Development, Low-Volume Production & Rapid Tooling

Our experienced team of engineers and technicians are dedicated to providing the highest quality of service and workmanship.

If you have any questions or would like to learn more about our Plastic Injection Molding services, please feel free to contact us.

Support and Services:

Plastic Injection Molding Service provides technical support and services to the customers. Our technical support team is available 24/7 to answer inquiries and provide advice on the best possible solutions. We can provide assistance with all aspects of the injection molding process including tooling, material selection, and production. We also provide a full range of services such as design and engineering, molding optimization, and post-molding operations. In addition, we can assist with troubleshooting and maintenance of injection molds and injection molding machines. Our team of experienced technicians is dedicated to providing quality service and support to ensure that your plastic injection molding process runs smoothly and efficiently.

Packing and Shipping:

Packaging and Shipping

Plastic Injection Molding Service provides safe and secure packaging and shipping for all of our products. All products are carefully packaged in a protective bubble wrap or a custom-made box to ensure that they arrive in perfect condition. We use only the best shipping companies to ensure that your products arrive on time and in perfect condition.

We offer free shipping for orders over \$50, and we also offer expedited shipping at an additional cost. We provide tracking numbers for all orders to ensure that you can always track the progress of your shipment.

FAQ:

Q&A of Plastic Injection Molding Service

Q: What is Plastic Injection Molding Service?

A: Plastic Injection Molding Service is a process to produce parts by injecting molten material into a mold cavity. Industrial Man provides OEM Plastic Injection Molding Service with brand name "Industrial Man" and origin from Guangdong, China.

Q: What is the advantage of Plastic Injection Molding Service?

A: Plastic Injection Molding Service offers efficient production of parts with complex geometries and precise tolerances. It is ideal for mass production and can provide cost savings when producing large quantities.

Q: What materials can be used for Plastic Injection Molding Service?

A: Industrial Man provides Plastic Injection Molding Service with a variety of materials, including thermoplastic resins, silicone rubber, elastomers, and various types of metal alloys.

Q: What is the lead time for Plastic Injection Molding Service?

A: Lead time for Plastic Injection Molding Service usually depends on complexity of the product and quantity of the order. It usually takes around 4-8 weeks.

Q: What is the minimum order quantity for Plastic Injection Molding Service?

A: Industrial Man provides Plastic Injection Molding Service with no minimum order quantity requirement.
