

CNC Prototype Medical Plastic Injection Molding Companies For Automotive Parts

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
- Name: Plastic Injection Molding Service
- Metal Material: Aluminum, Brass, Bronze, Copper, Steel...
- Service: CNC Plastic/Metal Prototype Machining, Injection Molding Process
- Color: Up To Your Decision
- Highlight: **CNC Prototype medical plastic injection molding**
, Prototype medical plastic injection molding,
Prototype automotive injection molding

Product Description

Product Description:

Our Product Introduction

Plastic Injection Molding Service is a professional production service that specializes in custom plastic injection molds and injection mold engineering. Our experienced engineers and technicians produce high quality injection mold tooling using a variety of materials including aluminum, brass, bronze, copper, steel and a variety of plastic materials. We offer a wide range of surface treatment options including polishing, painting, anodizing, silkscreen, sandblasting and texture processes to meet the needs of all kinds of projects. All of our services are manufactured in our facility in Guangdong, China.

We provide high quality injection molding services with unbeatable speed and accuracy. Our expert team of engineers and technicians are experienced in the injection molding process, ensuring your project is completed to the highest standard. We use the latest technology and advanced equipment to create the perfect injection mold, meeting the needs of our customers.

At Plastic Injection Molding Service, we understand the importance of meeting tight deadlines and providing a quality product. Our team will work closely with you to ensure your project is completed on time and within budget. We are committed to providing our customers with the highest level of customer service and satisfaction.

Features:

Product Name: Plastic Injection Molding Service

Place of Origin: Guangdong, China

Tolerance: 0.01

Application: Prototype Development, Low-Volume Production & Rapid Tooling

Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

High Precision Plastic Injection Molding

Custom Plastic Injection Molding

General Purpose Injection Molding System

Technical Parameters:

| Parameters | Description |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Name | Plastic Injection Molding Service |
| Color | Up to Your Decision |
| Metal Material | Aluminum, Brass, Bronze, Copper, Steel... |
| Place of Origin | Guangdong, China |
| Application | Prototype Development, Low-Volume Production & Rapid Tooling |
| Surface Treatment | Polishing, Painting, Anodizing, Silkscreen, Sandblasting, Texture |
| Type | Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping |
| Model Number | Sheet Metal Automotive Stamping Machining |
| Tolerance | 0.01 |
| Micro Machining or Not | Micro Machining |
| Keywords | High Precision Plastic Injection Molding, General Purpose Injection Molding System, Custom Plastic Injection Molding |

Applications:

Industrial Man provides **custom plastic injection molding service** for a variety of applications, such as prototype development, low-volume production, and rapid tooling. Our **brand name** is Industrial Man and our **model number** is OEM. Our custom plastic injection molding service is based in Guangdong, China and is designed to meet the highest quality standards. We specialize in a variety of services, including **automotive, medical, digital prototyping, and appliance prototyping**. Our services include **broaching, drilling, etching/chemical machining, laser machining, milling, other machining services, turning, wire EDM, and rapid prototyping**. We also offer various surface treatments such as **polishing, painting, anodizing, silkscreen, sandblasting, and texture**.

Customization:

Plastic Injection Molding Service

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping

Name: Plastic Injection Molding Service

Tolerance: 0.01

Color: Up To Your Decision

Application: Prototype Development, Low-Volume Production & Rapid Tooling

High Precision Plastic Injection Molding, Injection Mold Tooling, General Purpose Injection Molding System

Support and Services:

Plastic Injection Molding Service provides technical support and services to customers to help them achieve the best injection molding results. Our services include:

Pre-Mold Design & Analysis – Help customers finalize the mold design and optimize the mold for best results

Injection Molding Process Optimization – Improve the production process to maximize efficiency and reduce cycle times

Injection Molding Troubleshooting – Diagnose and fix any injection molding issues

Mold Maintenance – Regular maintenance to ensure optimal performance of the mold

Material Selection – Assistance in selecting the right materials for the injection molding process.

Packing and Shipping:

At Plastic Injection Molding Service, we understand the importance of proper packaging and shipping. We use high quality packaging materials to ensure that our products reach you in perfect condition. We also use specialized shipping companies that provide fast and reliable delivery services. We guarantee that our products will arrive on time and in excellent condition.

FAQ:

Q1: What is Plastic Injection Molding Service?

A1: Plastic Injection Molding Service is a manufacturing process for producing parts by injecting plastic materials into a mold. Industrial Man's Plastic Injection Molding Service involves the use of a ram or screw-type plunger to force molten plastic material into a mold cavity.

Q2: What is the brand name and model number of this Plastic Injection Molding Service?

A2: The brand name of this Plastic Injection Molding Service is Industrial Man and the model number is OEM. **Q3: Where is this Plastic Injection Molding Service manufactured?**

A3: This Plastic Injection Molding Service is manufactured in Guangdong, China. **Q4: What kind of plastic material do you use for the Plastic Injection Molding Service?**

A4: We use a wide range of plastic materials for the Plastic Injection Molding Service including ABS, PC, POM, PP, PE, PA, and PMMA.

Q5: What is the maximum size of the parts that you can make with this Plastic Injection Molding Service?

A5: The maximum size of the parts that we can make with this Plastic Injection Molding Service is dependent on the size of the injection molding machine, but typically it is up to 500mm in length and 400mm in width.
