

Rapid Prototyping Silicone Vacuum Casting Parts Laser Machining

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 3-7 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500Pcs/ Month

Product Specification

- Equipment: CNC Machining Vacuum Cating
- Tolerance: 0.01- +/-0.005mm
- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM, Rapid Prototyping
- Drawing Format: IGS STP STL
- Surface Treatment: Customer's Request
- OEM/ODM: Available
- Highlight: **Rapid Prototyping Silicone Vacuum Casting, Silicone Vacuum Casting Parts, Prototyping vacuum casting parts**

Product Description

Product Description:

Our Product Introduction

INDUSTRIAL-MAN Vacuum Pressure Casting Metal is a type of casting process that uses vacuum pressure to form metal into desired shapes. Vacuum pressure casting is a cost-effective and efficient way to produce complex shapes and intricate details, with a high degree of accuracy and repeatability. This type of casting process is suitable for a wide range of metals, such as aluminum, stainless steel, and titanium.

INDUSTRIAL-MAN Vacuum Pressure Casting Metal offers customers a variety of machining options, including broaching, drilling, laser machining, milling, turning, and wire EDM, to fulfill their specific needs. Moreover, customers can customize the surface treatments of their products, as well as the drawing formats of their designs. Our advanced CNC machining and vacuum casting equipment provide customers with unparalleled flexibility and precision.

INDUSTRIAL-MAN Vacuum Pressure Casting Metal provides customers with unparalleled quality and reliability. With our advanced technology and equipment, customers can be sure that their products will meet their highest expectations. Whether it's for industrial, commercial, or personal use, our vacuum pressure casting process can help customers achieve their desired results with minimal effort.

Features:

Product Name: Vacuum Casting Metal
Certification: IATF 16949: 2016/ISO 9001:2015
Tolerance: 0.01- +/-0.005mm
Surface treatment: Customer's Request
OEM/ODM: Available
Drawing Format: IGS STP STL
Vacuum Formed Metal
Vacuum Investment Casting

Technical Parameters:

Parameter	Description
Brand Name	INDUSTRIAL-MAN
Equipment	CNC Machining Vacuum Casting
Surface Treatment	Customer's Request
OEM/ODM	Available
Drawing Format	IGS STP STL
Certification	IATF 16949: 2016/ISO 9001:2015
Tolerance	0.01- +/-0.005mm
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM, Rapid Prototyping
Process	Vacuum Formed Metal, Vacuum Casting Process, Vacuum Investment Casting

Applications:

Industrial Man offers Vacuum Pressure Casting, Vacuum Investment Casting, and Vacuum Metal Casting services for customers who require high precision and excellent surface finish. Our Vacuum Casting Metal products are branded with our name and come with a Model Number of OEM, and have been certified with IATF 16949: 2016/ISO 9001:2015. These products are manufactured in Guangdong, China, and customers have the option to request any specific surface treatment. Our products feature a tolerance of 0.01- +/-0.005mm, and we accept OEM/ODM orders. Finally, all our drawing formats are in IGS STP STL.

Vacuum Pressure Casting, Vacuum Investment Casting, and Vacuum Metal Casting are some of the most efficient and cost-effective ways of producing metal parts with complex geometries and fine details. Industrial Man's Vacuum Casting Metal products are highly accurate and can produce intricate designs with a high degree of precision. Thanks to the excellent surface finish of our products, customers enjoy a superior quality product with great performance.

At Industrial Man, we are proud to offer reliable and cost-effective Vacuum Casting Metal services for a variety of applications. Our products are used in a wide range of industries, such as aerospace, automotive, medical, and commercial. Whether it is for prototyping or mass production, our Vacuum Casting Metal products are designed to meet the specific needs of our customers.

Customization:

INDUSTRIAL-MAN is dedicated to providing high-quality Vacuum Casting Metal with custom solutions for metal parts fabrication. Our model number OEM is available for OEM/ODM, and we are certified with IATF 16949:2016/ISO 9001:2015. We offer a wide range of services such as broaching, drilling, laser machining, milling, turning, wire EDM, and rapid prototyping. Our team can accept drawings in IGS, STP, and STL formats. We specialize in Vacuum Casting Process, Vacuum Assisted Casting, and Vacuum Formed Metal to meet the needs of our customers. All our products are customized according to your specific requirements.

Support and Services:

Vacuum Casting Metal Technical Support and Service

We provide technical support and service for Vacuum Casting Metal products. Our team of experts are available to provide guidance and advice on all aspects of the product, from installation to maintenance.

We can provide troubleshooting assistance and help you identify and resolve any issues you may be having. In addition, we can help you understand how to use the product properly and provide guidance on optimizing its performance.

We also offer regular updates and maintenance services to keep your Vacuum Casting Metal product up and running smoothly. Our team is available to answer any questions and provide further assistance.

Packing and Shipping:

Vacuum Casting Metal is carefully packaged in a sturdy cardboard box with foam inserts to ensure that the product arrives safely and undamaged. All products are shipped via a reliable courier service.

FAQ:

Vacuum Casting Metal

Q1: What is Vacuum Casting Metal?

A1: Vacuum Casting Metal is a casting process used to produce prototype and production parts in a variety of sizes and shapes, produced by Industrial Man with model number OEM, and made in Guangdong, China.

Q2: What materials are used for Vacuum Casting Metal?

A2: Vacuum Casting Metal can be produced with a variety of materials including ABS, polyurethane, and nylon.

Q3: What are the applications of Vacuum Casting Metal?

A3: Vacuum Casting Metal can be used in a variety of applications such as automotive, medical, consumer, and industrial products.

Q4: How long does it take for Vacuum Casting Metal to be completed?

A4: Vacuum Casting Metal can usually be completed in a few days, depending on the size and complexity of the part.

Q5: What is the cost of Vacuum Casting Metal?

A5: The cost of Vacuum Casting Metal depends on the size and complexity of the part. Contact Industrial Man for more detailed pricing information.
