

Metal Silicone Vacuum Casting Mold STP STL Drawing Format

Our Product Introduction

For more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 3-7 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500Pcs/ Month

Product Specification

- Surface Treatment: Customer's Request
- Tolerance: 0.01- +/-0.005mm
- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM, Rapid Prototyping
- Equipment: CNC Machining Vacuum Cating
- Drawing Format: IGS STP STL
- OEM/ODM: Available
- Highlight: **Metal Silicone Vacuum Casting, Silicone Vacuum Casting Mold, STP metal vacuum casting**

Product Description

Product Description:

Our Product Introduction

Vacuum Casting Metal is a high-precision casting process that creates highly detailed, complex parts with superior surface finish and accuracy. This process uses a vacuum chamber with a ceramic shell and a metal alloy to produce parts with excellent dimensional accuracy and surface finish. Vacuum Metal Casting is ideal for creating complex shapes with intricate details and fine surface finishes. It is also used to produce parts with intricate undercuts, hollow features, and tight tolerances. The process can be used to produce a variety of metals, including aluminum, steel, copper, brass, and bronze. Industrial-Man offers a wide range of Vacuum Casting Metal services in accordance with IATF 16949: 2016/ISO 9001:2015 certification and customers' requests for surface treatment. We can accept drawing formats such as IGS, STP, and STL and provide machining services like broaching, drilling, laser machining, milling, turning, wire EDM, and rapid prototyping.

Features:

Product Name: Vacuum Casting Metal
OEM/ODM: Available
Equipment: CNC Machining Vacuum Cating
Tolerance: 0.01- +/-0.005mm
Brand Name: INDUSTRIAL-MAN
Certification: IATF 16949: 2016/ISO 9001:2015
Process: Vacuum Die Casting, Vacuum Formed Metal, Vacuum Casting Process, Vacuum Casting Equipment

Technical Parameters:

Parameters	Details
OEM/ODM	Available
Certification	IATF 16949: 2016/ISO 9001:2015
Brand Name	INDUSTRIAL-MAN
Drawing Format	IGS STP STL
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM, Rapid Prototyping
Surface Treatment	Customer's Request
Tolerance	0.01- +/-0.005mm
Equipment	CNC Machining Vacuum Cating
Process	Vacuum Metal Casting, Vacuum Investment Casting, Vacuum Pressure Casting

Applications:

Industrial-Man's Vacuum Metal Casting process is the perfect solution for OEM and ODM projects. Our Vacuum Investment Casting and Vacuum Casting Process technology allows us to make parts with superior surface finish, accuracy and repeatability. With our CNC Machining Vacuum Casting equipment, we can easily create complex shapes with smooth surfaces and tight tolerances. Our Vacuum Casting services are certified by IATF 16949: 2016/ISO 9001:2015, ensuring the highest quality and maximum reliability of our parts. We accept a variety of drawing formats, such as IGS, STP, and STL, and we offer OEM and ODM services to meet your specific needs. Industrial-Man's Vacuum Metal Casting is the ideal choice for your next project.

Customization:

Industrial Man Vacuum Casting Metal Service

We provide custom Vacuum Casting Metal services to meet your specific needs, which include Vacuum Assisted Casting, Vacuum Investment Casting, and Vacuum Casting Process. We are confident in our capabilities to provide high-quality metal castings.

Features:

Brand Name: Industrial Man
Model Number: OEM
Place of Origin: Guangdong, China
OEM/ODM: Available
Surface treatment: Customer's Request
Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM, Rapid Prototyping
Tolerance: 0.01- +/-0.005mm
Certification: IATF 16949: 2016/ISO 9001:2015

Support and Services:

Vacuum Casting Metal Technical Support and Services

At Vacuum Casting Metal, we are committed to providing our customers with the best possible technical support and service. Our team of experts is available to answer any questions you may have about our products, processes, and services.

Our technical support staff can help you with troubleshooting and diagnostics, provide detailed product information, and answer any questions you have about our products and services. We also provide online tutorials and resources to help you learn more about vacuum casting metal.

If you need additional help, our team of experienced technicians can provide on-site repairs and maintenance services. We also offer custom fabrication services to help you get the most out of your vacuum casting metal.

For any questions or inquiries, please contact us via email at info@vacuumcastingmetal.com or call us at 888-555-1234.

Packing and Shipping:

Vacuum Casting Metal's Packaging and Shipping:

The Vacuum Casting Metal products are securely packaged in waterproof containers, and then delivered to their destination in the safest and most efficient manner possible. The containers are padded with foam to protect the products from any shocks or vibrations during transit.

Once the products have been packed, they are shipped via courier or other approved shipping methods to ensure a quick and safe delivery. Our team also works closely with the customer to ensure that the products are delivered on time and in mint condition.

FAQ:

Q: What is Vacuum Casting Metal?

A: Vacuum Casting Metal is a process of manufacturing parts using industrial grade materials for Industrial Man. It is a reliable and cost-effective way to produce parts with complex shapes, fine details, and smooth surface finish.

Q: Where is the Vacuum Casting Metal from?

A: Vacuum Casting Metal is from Guangdong, China and is manufactured by Industrial Man.

Q: What are the benefits of Vacuum Casting Metal?

A: Vacuum Casting Metal offers fast turnaround times and a cost-effective pricing structure, while producing parts with complex shapes, fine details, and a smooth surface finish.

Q: What is the model number of Vacuum Casting Metal?

A: The model number of Vacuum Casting Metal is OEM.

Q: What materials can Vacuum Casting Metal be used for?

A: Vacuum Casting Metal can be used for a variety of materials, such as aluminum, brass, copper, stainless steel, and more.
