

Steel POM CNC Auto Parts Precision Prototype Machining

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial-Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Surface Treatment: Polishing, Painting, Anodizing, Silk Creening, Sandblasting, Texture
- Application: Prototype Development, Low-Volume Production & Rapid Tooling
- Service: CNC Plastic/Metal Prototype Machining
- Micro Machining Or Not: Not Micro Machining
- Name: CNC Auto Parts
- Highlight: **CNC Auto Parts Prototype Machining, POM CNC Auto Parts, POM prototype cnc machining**

Product Description

Product Description:

Our Product Introduction

Industrial-Man offers high-precision components and CNC automatic parts for prototype development, low-volume production, and rapid tooling. Our digital mechanical parts are manufactured using CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, and RIM. The surface treatment options include polishing, painting, anodizing, silk creening, sandblasting, and texture. Our CNC automatic parts boast superior quality and accuracy, making them suitable for a wide range of applications. We take pride in providing excellent customer service and speedy delivery. Trust Industrial-Man to provide you with the highest quality CNC automatic parts and digital mechanical parts.

Features:

Product Name: CNC Auto Parts

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM

Surface treatment: Polishing, Painting, Anodizing, Silk Creening, Sandblasting, Texture

Specialty: Digital Mechanical Parts, Computerized Components, CNC Automatic Parts

Technical Parameters:

Technical Parameters	Description
Surface treatment	Polishing, Painting, Anodizing, Silk Creening, Sandblasting, Texture
Metal Material	Aluminum, Brass, Bronze, Copper, Steel...
Micro Machining or Not	Not Micro Machining
Service	CNC Plastic/Metal Prototype Machining
Process	CNC Macining, Vacuum Casting...
Plastic Material	ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Place of Origin	Guangdong, China
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Brand Name	Industrial-Man
Digital Mechanical Parts	Computer Numerical Parts, Computer Numerical Parts Machining

Applications:

CNC Auto Parts from Industrial Man, with model number OEM, are produced in Guangdong, China, and are widely used in a range of computerized components and automated machined parts. The parts are created through advanced CNC machining, vacuum casting and other processes, and then undergo polishing, painting, anodizing, silk screening, sandblasting and other surface treatments to ensure high quality and accuracy. Industrial Man is equipped with CMM, CNC (5 Axis) machines, CNC mill & turn & lathe, wire cutters, and RIM machines to ensure precision and accuracy. These parts are suitable for a variety of services, such as broaching, drilling, etching, chemical machining, laser machining, milling, rapid prototyping, turning, and wire EDM. CNC auto parts from Industrial Man are reliable and provide excellent quality for CNC plastic and metal prototype machining.

Customization:

CNC Auto Parts - Industrial Man OEM

Industrial Man OEM provides high-precision CNC auto parts, automated machined parts and digital mechanical parts. All parts are custom-made based on your specific requirements. Our products are manufactured with top-quality materials, such as aluminum, brass, bronze, copper, and steel. We offer a comprehensive range of surface treatments, including polishing, painting, anodizing, silk screening, sandblasting, and texturing. We also ensure all parts are not micro-machined.

Our facility is equipped with state-of-the-art machines, including CMM, CNC (5 Axis) machines, CNC mill & turn & lathe, wire cutter, and RIM. Our experienced staff is committed to delivering reliable products with high precision and accuracy.

Support and Services:

CNC Auto Parts Technical Support and Service

We are proud to offer excellent technical support and service for our CNC auto parts. Our team of highly trained experts are here to assist you with any technical issues you may experience, ensuring that your parts are always in top condition.

Our comprehensive technical support system offers a variety of options, such as online support, phone support, and on-site visits. Our technicians can quickly diagnose and troubleshoot any issues you may have, and offer solutions that will keep your parts running smoothly.

We also provide software updates and maintenance plans to ensure that your parts remain up to date. Our maintenance plans include regular inspections and preventive maintenance, ensuring that your parts always perform at their best.

Our customer service team is always available to answer any questions or concerns you may have, and our staff is committed to providing the highest level of service and support.

Packing and Shipping:

Packaging and Shipping for CNC Auto Parts

Our CNC auto parts are shipped in strong, durable packaging, designed to protect them from damage during shipping. We use bubble

wrap, air bags, and other protective materials to ensure our parts reach their destination in perfect condition. We ship all parts via reputable carriers, such as FedEx, UPS, and DHL. We also offer expedited shipping options, so you can get your parts quickly and easily. If you have any questions about our packaging and shipping process, please contact us and we will be happy to help.

FAQ:

Q&A about CNC Auto Parts

Q: What is the Brand Name of CNC Auto Parts?

A: The Brand Name of CNC Auto Parts is Industrial Man.

Q: What is the Model Number of CNC Auto Parts?

A: The Model Number of CNC Auto Parts is OEM.

Q: Where is CNC Auto Parts from?

A: CNC Auto Parts is from Guangdong, China.

Q: What are the advantages of using CNC Auto Parts?

A: CNC Auto Parts has the advantages of high precision, excellent repeatability, and good interchangeability.

Q: What applications can CNC Auto Parts be used for?

A: CNC Auto Parts can be used for aerospace, automotive, and medical industries.
