

Plastic Polyurethane Vacuum Casting Rapid Prototyping

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 3-7 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500Pcs/ Month

Product Specification

- Drawing Format: IGS STP STL
- OEM/ODM: Available
- Equipment: CNC Machining Vacuum Cating
- Tolerance: 0.01- +/-0.005mm
- Type: Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM, Rapid Prototyping
- Surface Treatment: Customer's Request
- Highlight: **Plastic polyurethane vacuum casting, Prototyping polyurethane vacuum casting, vacuum casting plastic Polyurethane**

Product Description

Product Description:

Our Product Introduction

INDUSTRIAL-MAN Vacuum Metal Casting is a cost-effective way of manufacturing metal parts with complex geometries. Our Vacuum Metal Casting process uses a two-part silicone mold to cast metals such as aluminum, stainless steel, brass, and bronze into custom parts with superior accuracy and precision. Our Vacuum Metal Casting capabilities include Vacuum Die Casting, Vacuum Investment Casting, and Vacuum Sand Casting. We offer a wide range of surface treatments and finishing options to meet customer requirements, including polishing, plating, and anodizing. We accept multiple drawing formats, including IGS, STP, and STL. All of our Vacuum Metal Casting products are certified to IATF 16949: 2016 and ISO 9001: 2015 standards, and OEM/ODM services are available.

Features:

Product Name: Vacuum Casting Metal
Surface Treatment: Customer's Request
Equipment: CNC Machining Vacuum Casting
OEM/ODM: Available
Drawing Format: IGS STP STL
Tolerance: 0.01- +/-0.005mm
Vacuum Formed Metal
Vacuum Pressure Casting
Vacuum Formed Metal Casting

Technical Parameters:

Product Attributes	Description
Certification	IATF 16949: 2016/ISO 9001:2015
Drawing Format	IGS STP STL
Type	Broaching, DRILLING, Laser Machining, Milling, Turning, Wire EDM, Rapid Prototyping
Surface Treatment	Customer's Request
Equipment	CNC Machining Vacuum Cating
Brand Name	INDUSTRIAL-MAN
OEM/ODM	Available
Tolerance	0.01- +/-0.005mm
Process	Vacuum Pressure Casting, Vacuum Formed Metal, Vacuum Casting Process

Applications:

INDUSTRIAL-MAN Vacuum Metal Casting is a superior technology with Model Number OEM and Place of Origin Guangdong, China. Our Vacuum Metal Casting process provides high accuracy and precision with Tolerance of 0.01- +/-0.005mm. We offer OEM/ODM services and are certified with IATF 16949: 2016/ISO 9001:2015 for quality assurance. Our advanced Vacuum Assisted Casting and Vacuum Cating equipment allows us to provide high quality products and services to meet customer needs.

Vacuum Metal Casting is a great solution for industrial parts with complex geometries. It is a cost-effective process that offers superior accuracy and quality. With Vacuum Metal Casting, customers can achieve intricate and complex shapes and features that cannot be achieved with other traditional methods. The process also offers precise parts with superior surface finish and detail. Vacuum Metal Casting is a great alternative to traditional casting methods because it is faster, cost-effective and offers superior accuracy and quality. At INDUSTRIAL-MAN, Vacuum Metal Casting is our specialty. We provide customers with the highest quality products and services. Our Vacuum Metal Casting process uses only the highest quality materials and equipment to ensure that your parts are accurate and reliable. We also provide superior customer service and support to ensure that your parts are delivered on-time and to your exact specifications.

Customization:

Vacuum Casting Metal from Industrial Man

Industrial Man is a professional supplier of Vacuum Casting Metal products. Our Vacuum Casting Metal products are manufactured using the Vacuum Casting Process, which is a form of Investment Casting. This process allows us to create highly detailed, complex parts with very tight tolerances in a fast and cost-effective manner. Through our Vacuum Casting Process, we are able to provide our customers with parts that conform to their exact specifications and requirements.

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

OEM/ODM: Available

Tolerance: 0.01- +/-0.005mm

Drawing Format: IGS STP STL

Equipment: CNC Machining Vacuum Cating

Surface treatment: Customer's Request

Our Vacuum Casting Metal products are of the highest quality and are designed to meet your exact specifications. We use state-of-the-art Vacuum Casting Process to create parts with superior strength and accuracy. Our Vacuum Investment Casting process also provides a smooth, consistent surface finish that is highly resistant to corrosion and wear. We are committed to providing our customers with the best Vacuum Casting Metal products available.

We offer a wide range of services when it comes to Vacuum Casting Metal. From custom design and engineering to prototyping and full-scale production, Industrial Man is here to meet all of your needs. Contact us today to learn more about our Vacuum Casting Metal products and services.

Support and Services:

Vacuum Casting Metal products come with reliable technical support and service.

We are committed to providing top-level technical support and service to customers. Our qualified technical support personnel are available to answer any questions you may have regarding the use of our Vacuum Casting Metal products. We also provide troubleshooting, repair and maintenance services to keep your Vacuum Casting Metal products in top condition.

We also have a professional customer service team on hand to address any issues customers might have with our products, such as

delivery problems or product defects. Our customer service team is available 24/7 to provide assistance and ensure that any issues are resolved quickly and efficiently. We strive to provide the best customer service and technical support possible, ensuring that your Vacuum Casting Metal products are always performing at their best.

Packing and Shipping:

Packaging and Shipping for Vacuum Casting Metal

Vacuum casting metal products should be packaged with extra care in order to ensure that they arrive at their destination in perfect condition. Vacuum castings should be placed in strong, sturdy boxes that are lined with bubble wrap, foam, or other cushioning material. All components that are part of the vacuum casting should be safely secured within the box, and the box should be properly sealed with tape.

The box should be labeled with the destination address, return address, and any other necessary information. Additionally, the box should be marked with a "Fragile" or "Handle with Care" label to ensure that the package is handled properly during shipping. Once the package is ready for shipping, it should be shipped using a reliable carrier that offers tracking and insurance.

FAQ:

Q1: What is Vacuum Casting Metal?

A1: Vacuum casting metal is a process of creating metal parts through the use of a vacuum chamber and a mold. The vacuum casting metal process allows for the production of complex components with a high degree of accuracy. Industrial Man's vacuum casting metal process uses high-grade steel molds to create parts with high strength and durability. **Q2: What is the Brand Name of Vacuum Casting Metal?**

A2: The Brand Name of Vacuum Casting Metal is Industrial Man. **Q3: What is the Model Number of Vacuum Casting Metal?**

A3: The Model Number of Vacuum Casting Metal is OEM. **Q4: Where is Vacuum Casting Metal made?**

A4: Vacuum Casting Metal is made in Guangdong, China. **Q5: What are the advantages of Vacuum Casting Metal?**

A5: The advantages of Vacuum Casting Metal include a high degree of accuracy, high strength and durability, and the ability to create complex components.
