

RIM Precision CNC Machining Parts Custom Machined Plastic Parts

Our Product Introduction

For more products please visit us on lathecncmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial-Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Application: Prototype Development, Low-Volume Production & Rapid Tooling
- Service: CNC Plastic/Metal Prototype Machining
- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Micro Machining Or Not: Not Micro Machining
- Process: CNC Macining, Vacuum Casting...
- Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber
- Highlight: **RIM precision cnc machining parts, Plastic precision cnc machining parts, custom machined plastic parts RIM**

Product Description

Product Description:

Our Product Introduction

Industrial-Man provides CNC Auto Parts with the highest quality and precision for your prototype development, low-volume production and rapid tooling needs. Our CNC auto parts are engineered with the latest Computer Numerical Parts (CNC) and Computerized Components technologies, allowing us to manufacture parts from a wide range of metal materials, including aluminum, brass, bronze, copper, steel and more. Our CNC auto parts are designed to meet the most exacting requirements, allowing you to produce precision auto parts with confidence. Our advanced CNC (5 Axis) machines, CNC Mill & Turn & Lathe, Wire Cutter and RIM equipment ensure that your parts are produced with the highest accuracy and reliability.

Features:

Product Name: CNC Auto Parts

Micro Machining or Not: Not Micro Machining

Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

Brand Name: Industrial-Man

Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber

Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter

Digital Mechanical Parts: Automated Machined Parts, High-Precision Components

Technical Parameters:

Name	Specifications
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Surface treatment	Polishing, Painting, Anodizing, Silk Greening, Sandblasting, Texture
Name	CNC Auto Parts
Metal Material	Aluminum, Brass, Bronze, Copper, Steel...
Place of Origin	Guangdong, China
Brand Name	Industrial-Man
Process	CNC Machining, Vacuum Casting...
Micro Machining or Not	Not Micro Machining
Application	Prototype Development, Low-Volume Production & Rapid Tooling
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Computer Numerical Parts	CNC Automatic Parts, Computer Numerical Parts

Applications:

Industrial-Man offers a wide range of CNC automated parts and components, with their OEM model number providing customers with high-precision, high-quality products. The CNC parts are made with CNC machining and vacuum casting processes, and they are crafted with materials such as aluminum, brass, bronze, copper, and steel. Industrial-Man ensures the manufacturing of parts and components with high accuracy and reliability.

The CNC automatic parts are perfect for prototype development, low-volume production, rapid tooling, and other industrial applications. They are also suitable for making various kinds of metal parts and components, from medical parts to automotive parts, that require high precision and reliable performance. Industrial-Man provides customers with comprehensive services such as CNC plastic and metal prototype machining, which allows customers to create high-end products.

Industrial-Man's CNC automated parts and components are ideal for a wide range of industries, including aerospace, automotive, medical, and electronics. With their high-precision, high-quality CNC automatic parts, Industrial-Man is a trusted partner for many customers in various industries.

Customization:

CNC Auto Parts

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Micro Machining or Not: Not Micro Machining

Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber

Name : CNC Auto Parts

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Service: CNC Plastic/Metal Prototype Machining

We specialize in providing Computer Numerical Parts, Computerized Components and Auto Parts. Our services include Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, and Wire EDM. We use the best quality of materials and the most advanced technology to provide a superior product.

Support and Services:

CNC Auto Parts provides technical support and services to ensure that customers feel confident and satisfied with their purchase. Our technical support team is available to answer any questions you may have about the product and ensure that you are using the product correctly. We also provide ongoing maintenance and repair services to ensure that the product continues to work properly. If you ever need assistance with the product, our team is here to help.

Packing and Shipping:

CNC Auto Parts Packaging and Shipping:

We package and ship our CNC auto parts in sturdy cardboard boxes, with bubble wrap and other protective materials to ensure that your parts arrive undamaged. We offer a variety of shipping options to accommodate your needs, including standard, expedited, and international shipping.

FAQ:

Q: What is the brand name of CNC Auto Parts?

A: The brand name is Industrial Man.

Q: What is the model number of CNC Auto Parts?

A: The model number is OEM.

Q: Where is CNC Auto Parts manufactured?

A: CNC Auto Parts is manufactured in Guangdong, China.

Q: Does CNC Auto Parts require special tools for installation?

A: No, CNC Auto Parts does not require special tools for installation.

Q: Is CNC Auto Parts suitable for industrial applications?

A: Yes, CNC Auto Parts is suitable for industrial applications.
