

## Prototyping CNC Machining Automotive Parts Machined Metal Parts

Our Product Introduction

For more products please visit us on [lathecncmachining.com](http://lathecncmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Micro Machining Or Not: Not Micro Machining
- Application: Prototype Development, Low-Volume Production & Rapid Tooling
- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Name: CNC Auto Parts
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Metal Material: Aluminum, Brass, Bronze, Copper, Steel...
- Process: CNC Macining, Vacuum Casting...
- Highlight: **Prototyping cnc machining automotive parts, Metal cnc machining automotive parts, Prototvping machined metal parts**

### Product Description

**Product Description:**

Our Pr

Industrial-Man CNC Automatic Parts are a range of automated machined parts crafted using digital mechanical parts. Our CNC machines use cutting edge technology to create parts that are accurate and precise to customer specifications. These parts are made from a variety of materials, including ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, and Glass Fiber. Our wide range of services includes broaching, drilling, etching/chemical machining, laser machining, milling, other machining services, rapid prototyping, turning, and wire EDM. Our CNC parts are manufactured in Guangdong, China, and we offer a variety of surface treatments, such as polishing, painting, anodizing, silk screening, sandblasting, and texture. Industrial-Man CNC Automatic Parts are guaranteed to meet your exact requirements and are sure to enhance the efficiency of your operations.

## Features:

Product Name: CNC Auto Parts

Process: CNC Macining, Vacuum Casting...

Place of Origin: Guangdong, China

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Brand Name: Industrial-Man

Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM

Computerized Components: Digital Mechanical Parts, Computer Numerical Parts

## Technical Parameters:

| Name              | Parameter   |
|-------------------|---|
| Metal Material    | Aluminum, Brass, Bronze, Copper, Steel...   |
| Brand Name        | Industrial-Man  |
| Service           | CNC Plastic/Metal Prototype Machining   |
| Process           | CNC Macining, Vacuum Casting...   |
| Application       | Prototype Development, Low-Volume Production & Rapid Tooling  |
| Place of Origin   | Guangdong, China  |
| Surface treatment | Polishing, Painting, Andozing, Silk Creening, Sanblasting, Texture  |
| Equipment         | CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM  |
| Name              | CNC Auto Parts  |
| Type              | Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM |
| Keywords          | Digital Mechanical Parts, CNC Automatic Parts, CNC Automatic Parts, CNC Machining   |

## Applications:

Industrial Man's CNC Auto Parts are designed with precision, accuracy and durability in mind. Produced using a combination of CMM, CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter and RIM technology, these high-precision components are optimally suited for both prototype development and low-volume production and rapid tooling. With a wide variety of plastic materials, such as ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon and Glass Fiber, to choose from, every component is custom-made to meet the needs of the customer. Additionally, the surface of the parts is specially treated with polishing, painting, andozing, silk screening, sandblasting and texturing methods to ensure a smooth finish and maximum durability in all conditions.

Industrial Man's CNC Auto Parts are the perfect solution for those who need high-precision components and digital mechanical parts for their automotive projects. Whether it's for a prototype development, low-volume production or rapid tooling, Industrial Man's CNC Auto Parts are the ideal choice for a wide variety of automotive applications. In addition, the parts are made from durable materials and are treated with special surface treatments to ensure maximum durability and longevity in all conditions.

For those in need of high-precision components and digital mechanical parts for their automotive projects, Industrial Man's CNC Auto Parts are the perfect solution. With a wide variety of plastic materials to choose from and special surface treatment methods, these parts are designed to last and to meet the needs of any customer. From prototype development, low-volume production to rapid tooling, Industrial Man's CNC Auto Parts are the ideal choice for all of your automotive needs.

## Customization:

Custom CNC Auto Parts

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Application: Prototype Development, Low-Volume Production & Rapid Tooling

Micro Machining or Not: Not Micro Machining

Name : CNC Auto Parts

Keywords:

Computerized Components

Computer Numerical Parts

High-Precision Components

## Support and Services:

CNC Auto Parts Technical Support and Service

We provide comprehensive technical support and service for CNC Auto Parts products. Our team of experienced technicians is available

24/7 to help you with any questions or issues you may have. We offer both on-site and remote support, and our technicians are knowledgeable in the latest CNC Auto Parts product lines.

We also offer comprehensive training and troubleshooting services. Our training sessions cover a range of topics, from basic CNC Auto Parts operation to advanced troubleshooting and repair. Our technicians can help you identify the cause of any problems you are experiencing, and offer advice on how to resolve them.

For added convenience, we also offer online support. Our online support portal is designed to make it easy for our customers to receive help quickly and efficiently. Through the portal, you can access our vast library of tutorials, FAQs, and other resources to help you get the most out of your CNC Auto Parts product.

If you have any questions or requests, please don't hesitate to contact us. We look forward to helping you get the most out of your CNC Auto Parts product!

### Packing and Shipping:

---

#### CNC Auto Parts Packaging and Shipping

We use customized packaging to ensure the safety of the CNC auto parts during shipping.

We use bubble wrap and/or cardboard boxes to package CNC auto parts.

We use various shipping methods, including air, sea, and ground shipping.

We can ship to any location worldwide.

We provide tracking information for all orders.

### FAQ:

---

Q: What is the brand name of CNC Auto Parts?

A: The brand name of CNC Auto Parts is Industrial Man.

Q: What is the model number of CNC Auto Parts?

A: The model number of CNC Auto Parts is OEM.

Q: Where is CNC Auto Parts manufactured?

A: CNC Auto Parts is manufactured in Guangdong, China.

Q: What are the components of CNC Auto Parts?

A: CNC Auto Parts is composed of multiple components, including motors, gears, spindles, and sensors.

Q: What is the application of CNC Auto Parts?

A: CNC Auto Parts is mainly used in the manufacturing industry, such as machining, cutting, drilling, grinding, etc.
