

Rapid Tooling CNC Auto Parts Machined Plastic Components OEM

Our Product Introduction

For more products please visit us on lathecncmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Service: CNC Plastic/Metal Prototype Machining
- Name: CNC Auto Parts
- Surface Treatment: Polishining, Painting, Andozing, Silk Creening, Sanblasting, Texture
- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
- Micro Machining Or Not: Not Micro Machining
- Application: Prototype Development, Low-Volume Production & Rapid Tooling
- Highlight: **Rapid Tooling CNC Auto Parts, OEM CNC Auto Parts.**

Product Description

Product Description:

Our Product Introduction

CNC Auto Parts provide high-precision components for prototype development, low-volume production and rapid tooling. Our automated machined parts are produced with the latest CNC(5 Axis) Machines, CMM, CNC Mill & Turn & Lathe, Wire Cutter and RIM. We are also able to process a wide range of materials including ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber, etc. Our professional engineering team and experienced machinists ensure consistently excellent quality and accuracy at every stage of the production process.

At CNC Auto Parts, we are committed to providing our customers with the highest quality CNC automatic parts in the industry. Our state-of-the-art facility is equipped with the latest technology and equipment to provide a variety of machining services including broaching, drilling, etching/chemical machining, laser machining, milling, rapid prototyping, turning and wire EDM. Our engineers and technicians specialize in producing custom components with the highest accuracy and precision. We have strict quality control standards in place to ensure customer satisfaction.

CNC Auto Parts is proud to be a trusted supplier of high-precision components. Our commitment to quality and customer service is unmatched in the industry. All of our products are made from the highest-grade materials and manufactured with the utmost precision and attention to detail. We guarantee that all of our parts meet the highest industry standards and are backed by our 100% satisfaction guarantee.

Features:

Product Name: CNC Auto Parts

Application: Prototype Development, Low-Volume Production & Rapid Tooling

Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber

Brand Name: Industrial-Man

Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Place of Origin: Guangdong, China

Computerized Components, Computer Numerical Parts, High-Precision Components

Technical Parameters:

Name	CNC Auto Parts
Equipment	CMM, CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Surface Treatment	Polishing, Painting, Anodizing, Silk Creening, Sandblasting, Texture
Process	CNC Machining, Vacuum Casting...
Service	CNC Plastic/Metal Prototype Machining
Plastic Material	ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber
Application	Prototype Development, Low-Volume Production & Rapid Tooling
Type	Broaching, Drilling, Etching/Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Metal Material	Aluminum, Brass, Bronze, Copper, Steel...
Micro Machining or Not	Not Micro Machining
Keywords	Computerized Components, High-Precision Components, Computer Numerical Parts

Applications:

Industrial Man's CNC Auto Parts are designed for high-precision components and automated machined parts. With the use of advanced CNC (Computer Numerical Control) machines, the parts can be machined with great accuracy and detail. For a complete solution, Industrial Man also offers a range of surface treatments, plastic materials, and process, including polishing, painting, anodizing, silk screening, sandblasting, texture, ABS, PP, POM, PC, acrylic, rubber, foam, nylon, glass fiber, CNC machining, vacuum casting, and more. To ensure the highest quality, Industrial Man's CNC auto parts are inspected using advanced equipment such as CMM, CNC (5 Axis) machines, CNC mill & turn & lathe, wire cutter, and RIM. The parts are suitable for prototype development, low-volume production, and rapid tooling. Industrial Man's CNC Auto Parts are the perfect choice for all kinds of high-precision and automated machined parts.

Customization:

Customized CNC Auto Parts From Industrial Man

Industrial Man provides customized CNC auto parts with top-notch quality and high precision components. Our CNC auto parts are made with the most advanced computer numerical control (CNC) machining processes, for automated machined parts with superior accuracy and repeatability.

Product Details

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Process: CNC Macining, Vacuum Casting, Broaching, Drilling, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM

Type: Prototype Development, Low-Volume Production & Rapid Tooling

Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber

We specialize in creating custom CNC auto parts to meet your specific needs. Our team of experienced engineers and technicians is dedicated to providing the highest quality parts and services with on-time delivery.

Trust the CNC auto parts experts at Industrial Man to get your job done right. Contact us today for more information.

Support and Services:

CNC Auto Parts provide technical support and services for our customers. Our experienced technical team is available to answer questions, provide advice and respond to any other inquiries. We also provide a range of services including installation, maintenance, repair and training. All our services are provided with a commitment to quality and customer satisfaction.

Packing and Shipping:

Packaging and Shipping for CNC Auto Parts

CNC auto parts are packaged and shipped with special care to prevent damage and ensure that they arrive in perfect condition. We use a variety of methods to protect and package our parts, including bubble wrap, cardboard boxes, and foam inserts. The parts are then placed in sturdy shipping boxes with cushioning material to protect them during shipment.

We ship our CNC auto parts via a variety of carriers, including USPS, FedEx, and UPS. Depending on the size and weight of the parts, we can offer express, priority, or ground shipping options. We always strive to provide our customers with fast and reliable shipping.

FAQ:

Q: What is the Brand Name of CNC Auto Parts?

A: The Brand Name of CNC Auto Parts is Industrial Man.

Q: What is the Model Number of CNC Auto Parts?

A: The Model Number of CNC Auto Parts is OEM.

Q: Where is the CNC Auto Parts from?

A: The CNC Auto Parts is from Guangdong, China.

Q: What materials are used to make CNC Auto Parts?

A: The materials used to make CNC Auto Parts are usually aluminum, brass, and steel.

Q: What is the application of CNC Auto Parts?

A: CNC Auto Parts are mainly used in automotive, aerospace, and medical industries.
