

Sheet Metal Welding Small Parts OEM CNC Prototyping

Basic Information

• Place of Origin: Guangdong, China • Brand Name: Industrial Man

OEM • Model Number: • Minimum Order 1PC

Quantity:

• Price: Negotiable

· Packaging Details: As the requirement of customer

• Delivery Time: 7-15 work days

• Payment Terms: L/C, D/A, D/P, T/T, Western Union,

MoneyGram

• Supply Ability: 100000Pcs/ Month

Product Specification

• Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam,

Nylon, Glass Fiber

• Keyword: Automotive, Medical, Digital Prototyping,

Appliance Prototyping

• Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

• Equipment: CMM, CNC(5 Axis) Machines, CNC Mill &

Turn & Lathe, Wire Cutter, RIM

• Surface Treatment: Polishining, Painting, Andozing, Silk

Creening, Sanblasting, Texture

Micro Machining Or Not: Not Micro Machining

• Type: Broaching, DRILLING, Etching / Chemical

> Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping,

Turning, Wire EDM

Name: Sheet Metal Welding Parts

Product Description

Sheet Metal Welding Parts is a special type of metal parts that are made through welding. This process involves connecting two or more pieces of metal together by melting them together at a high temperature. The metal materials used for welding include aluminum, brass, bronze, copper, steel, and other metals. The products are widely used in various industries such as automotive, medical, digital prototyping, appliance prototyping, and more. Our customized aluminum CNC machining service provides high-quality sheet metal welding parts for customers. Besides metal materials, we also offer CNC plastic/metal prototype machining services with various plastic materials including ABS, PP, POM, PC, acrylic, rubber, foam, nylon, and glass fiber. Our sheet metal welding parts are reliable and durable, and they are widely used in many applications.

Features:

Product Name: Sheet Metal Welding Parts Place of Origin: Guangdong, China Name: Sheet Metal Welding Parts

Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber

Process: CNC Machining, Vacuum Casting, etc.

Surface Treatment: Polishing, Painting, Anodizing, Silk Screening, Sandblasting, Texturing Keywords: Sheet Metal Products, Sheet Metal Products, Welded Sheet Metal Parts

Technical Parameters:

Brand Name	Customized Aluminum CNC Machining Service
Туре	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Model Number	CNC Machining Aluminum
Plastic Material	ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber
Place of Origin	Guangdong, China
Process	CNC Macining, Vacuum Casting
Metal Material	Aluminum, Brass, Bronze, Copper, Steel
Name	Sheet Metal Welding Parts
Service	CNC Plastic/Metal Prototype Machining
Surface treatment	Polishining, Painting, Andozing, Silk Creening, Sanblasting, Texture
Special Focus on	Sheet Metal Welded Parts, Welded Sheet Metal Parts, Sheet Metal Parts, Metal Parts

Applications:

Sheet Metal Welding Parts is an important product for prototype development, low-volume production and rapid tooling. It is a customized aluminum CNC machining service with brand name and model number CNC Machining Aluminum. The place of origin is Guangdong, China. Sheet Metal Welding Parts are manufactured with advanced equipment such as CMM, CNC(5 Axis) machines, CNC Mill & Turn & Lathe, Wire Cutter and RIM. It is an important process for the production of sheet metal products. It can guarantee the accuracy and stability of the welding parts, and its strength and durability can meet the technical requirements of the production process. Sheet Metal Welding Parts Manufacturing is a complex and precise process, which requires high-quality equipment and professional skills.

Customization:

Customized Sheet Metal Welding Parts

Brand Name: Customized Aluminum CNC Machining Service

Model Number: OEM

Place of Origin: Guangdong, China

Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM

Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

Process: CNC Macining, Vacuum Casting...

Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping

Sheet Metal Welded Parts: We provide sheet metal welding parts manufacturing services for different applications such as automotive, medical, digital prototyping, appliance prototyping, etc. We use high quality materials such as aluminum, steel, brass, bronze and copper to ensure the highest quality products. Our CNC machining equipment, machines, mill & turn & lathe, wire cutters, and RIM processes ensure precise and accurate parts. We guarantee the best quality product and timely delivery.

Support and Services:

Technical Support and Service for Sheet Metal Welding Parts

We provide comprehensive technical support and service for Sheet Metal Welding Parts. Our team of experienced engineers and technicians are available to provide customers with the best solutions for their welding needs. We offer a range of services, including: Design consultation and engineering services

Troubleshooting and repair services

Installation and commissioning

On-site training and support

Customized welding processes

Regular maintenance and inspection

We are committed to providing quality technical support and service that meets our customers' needs. If you have any questions or need

assistance, please contact us and we will be glad to help.

Packing and Shipping:

The packaging and shipping of Sheet Metal Welding Parts include the following steps:

Inspect the parts for any damages.

Protect the parts from any further damage by wrapping them with bubble wrap.

Place the parts in a box and seal it.

Label the box with relevant information such as destination address, product name, and quantity.

Arrange for shipping and delivery.

FAQ:

- Q1: What is the brand name of the Sheet Metal Welding Parts?
- A1: The brand name of the Sheet Metal Welding Parts is Industrial Man.
- Q2: What is the model number of the Sheet Metal Welding Parts?
- A2: The model number of the Sheet Metal Welding Parts is OEM.
- Q3: Where is the Sheet Metal Welding Parts manufactured?
- A3: The Sheet Metal Welding Parts is manufactured in Guangdong, China.
- Q4: What kind of materials are used for the Sheet Metal Welding Parts?
- A4: The Sheet Metal Welding Parts is made of high-quality metal materials.
- Q5: What is the surface treatment for the Sheet Metal Welding Parts?
- A5: The Sheet Metal Welding Parts is available with a range of surface treatments, such as anodizing, powder coating, and sandblasting.
