

High Precision CNC Auto Parts Lathe Components

Our Product Introduction

For more products please visit us on lathecncmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Application: Prototype Development, Low-Volume Production & Rapid Tooling
- Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber
- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Service: CNC Plastic/Metal Prototype Machining
- Surface Treatment: Polishining, Painting, Andozing, Silk Creening, Sanblasting, Texture
- Metal Material: Aluminum, Brass, Bronze, Copper, Steel...
- Process: CNC Macining, Vacuum Casting...
- Highlight: **High Precision CNC Auto Parts, Lathe CNC Auto Parts, High Precision cnc lathe components**

Product Description

Product Description:

Our Product

CNC Auto Parts are computer numerical and digital mechanical parts that are used for prototype development, low-volume production, and rapid tooling applications. Our CNC auto parts are manufactured using advanced CNC machining, vacuum casting, and other processes. We can perform surface treatments such as polishing, painting, anodizing, silk screening, sandblasting, and textures. Our CNC Auto Parts are known for their high accuracy and precision, making them ideal for a wide range of industries, from automotive and aerospace to medical and consumer products. With our expertise in rapid tooling, we can produce quality parts quickly and cost-effectively. Our CNC auto parts are manufactured in Guangdong, China, so you can be sure that you are getting the best quality and value for your money.

Features:

Product Name: CNC Auto Parts

Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM

Micro Machining or Not: Not Micro Machining

Place of Origin: Guangdong, China

Keywords: CNC Automatic Parts, Digital Mechanical Parts, High-Precision Components

Technical Parameters:

Property	Details
Metal Material	Aluminum, Brass, Bronze, Copper, Steel...
Brand Name	Industrial-Man
Process	CNC Macining, Vacuum Casting...
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Name	CNC Auto Parts
Micro Machining or Not	Not Micro Machining
Application	Prototype Development, Low-Volume Production & Rapid Tooling
Place of Origin	Guangdong, China
Surface treatment	Polishing, Painting, Andozing, Silk Creening, Sanblasting, Texture
Keywords	Automated Machined Parts, Computerized Components, Automated Machined Parts, Computerized Components, CNC Machining
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM

Applications:

Industrial Man's CNC Auto Parts are designed for applications that require the highest level of precision and accuracy. These parts are specifically fabricated from a variety of metals including Aluminum, Brass, Bronze, Copper, and Steel. The parts are machined using CNC machining and vacuum casting, and undergo a variety of surface treatments including polishing, painting, anodizing, silk screening, and texturing. The parts are completely automated and have remarkable accuracy and repeatability, making them ideal for digital mechanical parts, high-precision components, and automated machined parts.

Industrial Man's CNC Auto Parts have a model number of OEM and are manufactured in Guangdong, China. The parts are renowned for their durability and are suitable for a variety of applications. Thanks to the intricate machining processes and the intricate surface treatments, these parts are ideal for a variety of projects. The parts are available in a variety of sizes and shapes, making them suitable for any type of project.

Industrial Man's CNC Auto Parts are the perfect choice for any project that requires digital mechanical parts, high-precision components, and automated machined parts. The parts are durable and reliable, and offer superior accuracy and repeatability. Thanks to their exceptional quality and performance, these parts are the perfect choice for any project.

Customization:

Our **CNC Auto Parts** are made with high quality material and crafted with precision and accuracy. We offer custom services for your specific needs. Our brand name is Industrial Man and our model number is OEM. We offer a variety of surface treatments such as Polishing, Painting, Andozing, Silk Creening, Sanblasting, and Texture. Our metal materials include Aluminum, Brass, Bronze, Copper, Steel, etc. We specialize in **Computer Numerical Parts** and **CNC Automatic Parts**. Our products are made in Guangdong, China and we provide the best CNC Plastic/Metal Prototype Machining.

Support and Services:

CNC Auto Parts Technical Support and Service

We provide comprehensive technical support and service for all CNC auto parts. Our experienced team of technicians can provide customer service over the phone, via email, or on-site. We can help troubleshoot any issues you may have with your CNC auto part, provide advice on maintenance and repair, and answer any other questions you may have.

We also provide a variety of helpful resources online, such as instructional videos and product manuals. These resources can help you get the most out of your CNC auto part and ensure that it is running properly.

If you need help or have questions, please don't hesitate to contact us. We are committed to providing excellent customer service and ensuring that you get the most out of your CNC auto part.

Packing and Shipping:

CNC Auto Parts Packaging and Shipping:

We use cardboard boxes, corrugated boxes, or bubble wrap for packaging.

We ship CNC auto parts through USPS, FedEx, or UPS.

We guarantee the parts will be delivered within the specified time frame.
We only use recyclable materials for packing and shipping.
We also offer same-day delivery for certain parts.

FAQ:

Q: What is the brand name of CNC Auto Parts?

A: The brand name is Industrial Man.

Q: What is the model number of CNC Auto Parts?

A: The model number is OEM.

Q: Where is the place of origin of CNC Auto Parts?

A: The place of origin is Guangdong, China.

Q: Does CNC Auto Parts come with an instruction manual?

A: Yes, CNC Auto Parts comes with a detailed instruction manual.

Q: What is the warranty period for CNC Auto Parts?

A: CNC Auto Parts has a one-year warranty period from the date of purchase.
