

## Customized Aluminum Sheet Metal Welding Parts Cncprecision Machining Service

Our Product Introduction

For more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Customized Aluminum CNC Machining Service
- Model Number: CNC Machining Aluminum
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

### Product Specification

- Service: CNC Plastic/Metal Prototype Machining
- Application: Prototype Development, Low-Volume Production & Rapid Tooling
- Micro Machining Or Not: Not Micro Machining
- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Process: CNC Macining, Vacuum Casting...
- Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber
- Highlight: **cnc Sheet Metal Welding Parts, Cncprecision Machining Sheet Metal Welding Parts, Customized cncprecision parts**

### Product Description

**Product Description:**

Our Product

Sheet Metal Welding Parts is a product that provides precision CNC machining, vacuum casting, and other services for manufacturers who need high-quality sheet metal products. We specialize in the production of sheet metal products, including automotive, medical, digital prototyping, and appliance prototyping. Our processes include CNC machining, vacuum casting, broaching, drilling, etching/chemical machining, laser machining, milling, turning, wire EDM, and other machining services. We use a variety of materials, such as ABS, PP, POM, PC, acrylic, rubber, foam, nylon and glass fiber. We also provide rapid prototyping services for our customers. Our sheet metal welding parts are not micro machining, providing excellent performance and a long service life. We also provide customized services for customers with different needs.

## Features:

Product Name: Sheet Metal Welding Parts

Application: Prototype Development, Low-Volume Production & Rapid Tooling

Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

Service: CNC Plastic/Metal Prototype Machining

Surface treatment: Polishing, Painting, Anodizing, Silk Creening, Sandblasting, Texture

Keywords: Sheet Metal Welding Parts, Sheet Metal Welded Parts, Sheet Metal Parts, Metal Welding Parts, Metal Welded Parts

## Technical Parameters:

Parameter	Description
Service	CNC Plastic/Metal Prototype Machining
Keyword	Automotive, Medical, Digital Prototyping, Appliance Prototyping
Process	CNC Machining, Vacuum Casting...
Model Number	CNC Machining Aluminum
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Rapid Prototyping, Turning, Wire EDM
Plastic Material	ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber
Name	Sheet Metal Welding Parts
Surface treatment	Polishing, Painting, Anodizing, Silk Creening, Sandblasting, Texture
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Micro Machining or Not	Not Micro Machining
Welded Sheet Metal Parts	Sheet Metal Welded Parts, Metal Welded Parts, Sheet Metal Welding Parts

## Applications:

Sheet Metal Welding Parts are widely used in many applications, from industrial machinery and motors to home goods and appliances. The welding process produces parts that are strong, durable, and highly customizable. Sheet Metal Welding Parts can be used for customizing, repairing, or replacing components in a variety of products. Customized Aluminum CNC Machining Service is used to produce high-quality Sheet Metal Welding Parts, with precision accuracy and repeatability. The CNC process is well-suited for high-volume production, and can be used for both short and long production runs. Equipped with CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM and other advanced machining equipment, CNC Machining Service can provide high-performance sheet metal welding parts for OEM customers. CNC Machining Service uses vacuum casting, CNC Machining and other processes to produce precision sheet metal welding parts with high repeatability and accuracy. Sheet Metal Welding Parts are used in a wide variety of applications, including aerospace, automotive, medical, industrial, and consumer products.

## Customization:

We offer customized Aluminum CNC Machining Service with OEM Model Number. Our Sheet Metal Welding Parts are made from premium grade materials and are processed through CNC Machining, Vacuum Casting, Polishing, Painting, Anodizing, Silk Creening, Sandblasting, Texture and other surface treatments. The parts are not micro machined and can be made from ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, and Glass Fiber. We are dedicated to producing high quality and reliable Welded Sheet Metal Parts to meet your specific requirements.

## Support and Services:

We provide comprehensive technical support and services for Sheet Metal Welding Parts. Our technical support team is available 24/7 to assist with product installation, troubleshooting, repair, and maintenance. We also offer product customization services to meet your specific needs. Our customer service team is available to answer any questions you may have about the product or its use. If you have any technical issue, we are here to help you.

## Packing and Shipping:

Packaging and Shipping for Sheet Metal Welding Parts:

Sheet Metal Welding Parts will be packed in a wooden box with partitions.

The box will be wrapped with a plastic film to protect it from moisture.

The box will be labeled with the product's name and other necessary information.

The package will be shipped via trusted courier services.

## FAQ:

Q: What is the brand name for Sheet Metal Welding Parts?

A: The brand name for Sheet Metal Welding Parts is Industrial Man.

Q: What is the model number for Sheet Metal Welding Parts?

A: The model number for Sheet Metal Welding Parts is OEM.

Q: Where is Sheet Metal Welding Parts manufactured?

A: Sheet Metal Welding Parts is manufactured in Guangdong, China.

Q: What materials are used for Sheet Metal Welding Parts?

A: Sheet Metal Welding Parts are usually made from sheet metal such as steel, aluminum, and stainless steel.

Q: Are Sheet Metal Welding Parts customizable?

A: Yes, Sheet Metal Welding Parts can be customized according to customer specifications.
