

Medical CNC Machined Products Lathe Parts Digital Prototyping

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Customized Aluminum CNC Machining Service
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Process: CNC Macining, Vacuum Casting...
- Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping
- Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber
- Metal Material: Aluminum, Brass, Bronze, Copper, Steel...
- Name: Sheet Metal Welding Parts
- Service: CNC Plastic/Metal Prototype Machining
- Application: Prototype Development, Low-Volume Production & Rapid Tooling
- Highlight: **Prototyping cnc machined products, Digital Prototyping cnc machined products, Prototyping cnc lathe parts**

Product Description

Product Description:

Our Product Introduction

Sheet Metal Welded Parts are specialized metal products manufactured by cutting, bending, welding and assembling sheet metals. They are used in a variety of industries, including automotive, medical, digital prototyping and appliance prototyping. Our sheet metal products are made from high-quality metals, such as steel, aluminum, and stainless steel, and are machined using CNC machining, micro machining, and other processes. Our advanced manufacturing technology and equipment, such as CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, and RIM, allows us to provide superior quality products with shorter lead times. We offer a variety of sheet metal fabrication services, including broaching, drilling, etching / chemical machining, laser machining, milling, other machining services, rapid prototyping, turning, and wire EDM.

Features:

Product Name: Sheet Metal Welding Parts

Micro Machining or Not: Not Micro Machining

Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber

Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM

Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping

Name: Welded Sheet Metal Parts, Metal Welded Parts, Sheet Metal Welding Parts

Technical Parameters:

Parameter	Value
Process	CNC Macining, Vacuum Casting...
Application	Prototype Development, Low-Volume Production & Rapid Tooling
Plastic Material	ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber
Keyword	Automotive, Medical, Digital Prototyping, Appliance Prototyping
Model Number	CNC Machining Aluminum
Metal Material	Aluminum, Brass, Bronze, Copper, Steel...
Name	Sheet Metal Welding Parts
Surface treatment	Polishining, Painting, Andozing, Silk Creening, Sanblasting, Texture
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Place of Origin	Guangdong, China
Keywords	Sheet Metal Welded Parts, Sheet Metal Products, Welded Sheet Metal Parts

Applications:

Sheet Metal Welding Parts are widely used in various industries and applications. The Metal Welded Parts are custom fabricated to meet the requirements and specifications of each individual customer. The Metal Welded Parts Service uses high-grade materials such as aluminum and steel for its parts and components, and provides a variety of surface treatments such as polishing, painting, anodizing, silk screening, and sandblasting. It also offers texture micro machining processes for unique designs and textures.

Customized Sheet Metal Parts are produced using state-of-the-art equipment such as CMM, CNC (5 Axis) machines, CNC mill & turn & lathe, wire cutter, and RIM. It offers high-precision machining services to clients across the world. The Aluminum CNC Machining Service is used for a variety of purposes, such as automotive, aerospace, medical, and consumer products. It offers a range of services, including design, prototyping, and production.

The Sheet Metal Welding Parts are designed to meet the highest quality standards and offer a cost-effective solution. It provides consistent and reliable performance and is ideal for a wide range of applications. The Metal Welded Parts Service offers precision parts that are designed to meet the highest requirements and ensure excellent performance. The Customized Sheet Metal Parts are available in a variety of shapes, sizes, and colors, and are fabricated using advanced technology. The Aluminum CNC Machining Service is designed to meet the highest standards of accuracy and quality.

Customization:

Sheet Metal Welding Parts

Brand Name: Industrial Man

Model Number: OEM

Place of Origin: Guangdong, China

Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping

Plastic Material: ABS, PP, POM, PC, Acrylic, Rubber, Foam, Nylon, Glass Fiber

Application: Prototype Development, Low-Volume Production & Rapid Tooling

Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

Service: CNC Plastic/Metal Prototype Machining

Focus: Sheet Metal Welding Parts, Welded Sheet Metal Parts, Sheet Metal Welded Parts

Support and Services:

We provide technical support and service for Sheet Metal Welding Parts. Our technical support team is available 24 hours a day, 7 days a week. We can help with installation, troubleshooting, and repair. We also offer training services for those who need additional assistance with using Sheet Metal Welding Parts. Our team of experts can provide advice on the best practices for using the product and can help you get the most out of the product. We also offer after-sales service and repair services to ensure your Sheet Metal Welding Parts are working correctly and efficiently.

Packing and Shipping:

Packaging and Shipping for Sheet Metal Welding Parts

We use high-quality cartons to package and ship our sheet metal welding parts. We use bubble wrap to cover the parts and ensure they

arrive in the same condition they were sent in. We also include a packing slip with each shipment so that the customer can easily track their order.

We use major carriers such as UPS, FedEx, and DHL to ship our sheet metal welding parts. We also offer expedited shipping for time-sensitive orders. We guarantee that all orders will arrive on time and in perfect condition.

FAQ:

Q: What is Sheet Metal Welding Parts?

A: Sheet Metal Welding Parts are components produced by Industrial Man with Model Number OEM, which are made from sheet metal and welded together to create a complete part.

Q: Where is Sheet Metal Welding Parts produced?

A: Sheet Metal Welding Parts are produced in Guangdong, China by Industrial Man.

Q: What are the advantages of Sheet Metal Welding Parts?

A: Sheet Metal Welding Parts are strong and durable, and can be customized to meet your specific needs. They are also cost-effective and efficient for mass production.

Q: What materials are used in Sheet Metal Welding Parts?

A: Sheet Metal Welding Parts are made of sheet metal, such as stainless steel, aluminum, and other metals.

Q: What industries are Sheet Metal Welding Parts used in?

A: Sheet Metal Welding Parts are widely used in many industries, such as automotive, aerospace, medical, and construction.
