

Aluminum CNC MIM Rapid Tooling Injection Molding Customized

Our Product Introduction

For more products please visit us on lathecncmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Customized Aluminum CNC Machining Service
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: CNC Machining Aluminum
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Application: Prototype Development, Low-Volume Production & Rapid Tooling
- Metal Material: Aluminum, Brass, Bronze, Copper, Steel...
- Surface Treatment: Polishing, Painting, Anodizing, Silk Creening, Sandblasting, Texture
- Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping
- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Service: CNC Plastic/Metal Prototype Machining
- Highlight: Customized Rapid Tooling Injection Molding, MIM Rapid Tooling Injection Molding, CNC mim metal injection molding

Product Description

Product Description:

Rapid Tooling Injection Molding is a customized aluminum CNC machining service that provides CNC plastic/metal prototyping machining with model number CNC Machining Aluminum. We use state-of-the-art CMM, CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter and RIM equipment in order to provide quick tooling injection molding, quick tooling injection casting and quick tooling injection molding and casting services with high accuracy and precision. Our services are suitable for automotive, medical, digital prototyping and appliance prototyping industries. We guarantee high quality products with superior performance and excellent craftsmanship.

Features:

Product Name: Rapid Tooling Injection Molding

Service: CNC Plastic/Metal Prototype Machining

Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM

Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping

Brand Name: Customized Aluminum CNC Machining Service

Application: Prototype Development, Low-Volume Production & Rapid Tooling

Special Feature: Speedy Tooling Injection Molding, Quick Tooling Injection Casting, Quick Tooling Injection Molding

Technical Parameters:

Technical Parameter	Description
Surface treatment	Polishing, Painting, Anodizing, Silk Screening, Sandblasting, Texture
Model Number	CNC Machining Aluminum
Application	Prototype Development, Low-Volume Production & Rapid Tooling
Brand Name	Customized Aluminum CNC Machining Service
Keyword	Automotive, Medical, Digital Prototyping, Appliance Prototyping
Service	CNC Plastic/Metal Prototype Machining
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Metal Material	Aluminum, Brass, Bronze, Copper, Steel...
Rapid Tooling Injection Molding	Quick Tooling Injection Casting, Speedy Tooling Injection Molding, Fast Tooling Injection Casting

Applications:

Rapid Tooling Injection Molding with Industrial Man OEM Solutions

Industrial Man provides rapid tooling injection molding solutions for the automotive, medical and digital prototyping, and appliance prototyping industries. Our OEM services include CMM, CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, and RIM. Our surface treatments are of the highest quality, including polishing, painting, anodizing, silk screening, sandblasting, and texturing. Our rapid tooling injection molding services provide a speedy prototyping injection molding process that is perfect for rapid prototyping and tooling injection casting.

Industrial Man has the right resources and expertise to help you achieve your metalworking needs. We specialize in a variety of metal materials, including aluminum, brass, bronze, copper, and steel. With our rapid tooling injection molding solutions, you can ensure that your product is up to the highest standards and meets your demands.

At Industrial Man, we strive to provide our customers with the best OEM services and the highest quality rapid tooling injection molding solutions available. Whether you need fast prototyping injection molding or metalworking services, you can trust Industrial Man to deliver.

Customization:

Customized Aluminum CNC Machining Service

Brand Name: Customized Aluminum CNC Machining Service

Model Number: OEM

Place of Origin: Guangdong, China

Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM

Keyword: Automotive, Medical, Digital Prototyping, Appliance Prototyping

Surface treatment: Polishing, Painting, Anodizing, Silk Screening, Sandblasting, Texture

Metal Material: Aluminum, Brass, Bronze, Copper, Steel...

Speedy Tooling Injection Molding, Rapid Tooling Injection Molding, Quick Prototyping Injection Molding

Support and Services:

Rapid Tooling Injection Molding Technical Support and Service

We offer technical support and services for Rapid Tooling Injection Molding. Our team of experts can provide assistance with the following:

Design and development of injection molds

CAD/CAM software and systems integration

Prototype and production-level injection molding

Material selection and testing

Process optimization and troubleshooting

Post-processing techniques for injection molded parts

Our team is available to answer any questions you may have related to Rapid Tooling Injection Molding. Please feel free to contact us for more information.

Packing and Shipping:

Packaging and Shipping for Rapid Tooling Injection Molding

Rapid Tooling Injection Molding products are packaged and shipped using the following materials and methods:
The products are placed in a corrugated box for protection
The box is sealed with industrial-strength tape
A heavy-duty plastic wrap is placed around the box for additional protection
The box is labeled clearly with the customer's address, the contents, and the weight of the package
The package is shipped via a trusted carrier, such as UPS, FedEx, or DHL

FAQ:

Q: What is Rapid Tooling Injection Molding?

A: Rapid Tooling Injection Molding is a process of producing parts from thermoplastic materials in a cost-effective and time-saving way.

Q: What brand is Rapid Tooling Injection Molding from?

A: Rapid Tooling Injection Molding is from Industrial Man, with model number OEM.

Q: Where is the Rapid Tooling Injection Molding made?

A: Rapid Tooling Injection Molding is made in Guangdong, China.

Q: What are the benefits of Rapid Tooling Injection Molding?

A: Rapid Tooling Injection Molding offers high accuracy, repeatability, and low cost.

Q: What materials can be used for Rapid Tooling Injection Molding?

A: Rapid Tooling Injection Molding is suitable for thermoplastic materials like ABS, PC, PA, POM, etc.
