

OEM Prototype Automotive Stamping Parts CNC Car Body Panel

Our Product Introduction

For more products please visit us on lathecnmaching.com

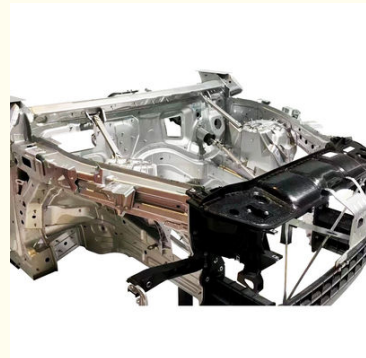

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial-Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Surface Treatment: Painting;chrome Plating;slik Screen;polish;highly Polished Etc
- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Micro Machining Or Not: Micro Machining
- Item: Plastic Cnc Mini Car Model For Prototype
- Highlight: **OEM automotive stamping parts, CNC automotive stamping parts, Prototype body panel stamping**

Product Description

Product Description:

Our Pr

Industrial-Man's CNC Car Model is a superior product that is designed for long-term use and offers a variety of surface treatments, including painting, chrome plating, silk screen, polishing, and highly polishing. It is equipped with state-of-the-art CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM, and other machinery, making it the perfect choice for micro machining and CNC turning parts. It is also ideal for CNC bicycle parts and CNC machine automotive parts. The plastic CNC mini car model is perfect for prototypes and is designed to withstand the test of time.

Features:

Product Name: CNC Car Model

Item: Plastic Cnc Mini Car Model For Prototype

Place of Origin: Guangdong, China

Brand Name: Industrial-Man

Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM

Surface treatment: Painting;chrome Plating;silk Screen;polish;highly Polished Etc

Special Focus: CNC Engineering Machine Parts, CNC Turning Parts, CNC Machine Accessories

Technical Parameters:

Parameter	Value
Surface Treatment	Painting; chrome Plating; silk Screen; polish; highly Polished Etc
Micro Machining or Not	Micro Machining
Brand Name	Industrial-Man
Place of Origin	Guangdong, China
Item	Plastic CNC Mini Car Model For Prototype
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
German Made CNC Machines	Yes
CNC Hardware Parts	Yes

Applications:

Industrial-Man offers a complete line of CNC Car Model, with model number OEM, made in Guangdong, China. The item is a plastic CNC mini car model ideal for prototyping and micro-machining. It is made of top-of-the-line CMM, CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter and RIM. With its precise manufacturing process, Industrial-Man CNC Car Model is the perfect solution for CNC engineering machine parts, CNC turned components and CNC turning parts.

Thanks to its superior quality and accuracy, Industrial-Man CNC Car Model can be used in various applications and industries. From automotive and aerospace to medical and food processing, Industrial-Man CNC Car Model can be tailored to fit your specific requirements. It is the perfect choice for prototyping and micro-machining.

Industrial-Man CNC Car Model is designed for durability and reliability. It is made of superior quality materials and uses advanced technologies to ensure its durability and accuracy. Its optimized design allows for faster and more efficient production. Industrial-Man CNC Car Model is the perfect choice for any CNC engineering machine parts, CNC turned components and CNC turning parts.

For the best CNC Car Model, choose Industrial-Man with model number OEM. It is made in Guangdong, China and is perfect for prototyping and micro-machining. With its superior quality and accuracy, Industrial-Man CNC Car Model is the perfect solution for CNC engineering machine parts, CNC turned components and CNC turning parts.

Customization:

Industrial-Man CNC Car Model Customization Service

Industrial-Man offers a wide range of CNC car model customization services, providing high-quality OEM car models using German made CNC machines. Our CNC machines are equipped with 5-axis, CMM, CNC mill & turn & lathe, wire cutter and RIM machines, allowing us to create plastic CNC mini car models for prototyping.

Our services also include CNC machine accessories, CNC turning parts, CNC machining services, and metal stamping parts. We perform micro machining to ensure the highest precision and quality of the car models. All car models produced by Industrial-Man are of superior quality and are guaranteed to meet your exact requirements.

If you are looking for a reliable CNC car model customization service, look no further than Industrial-Man. Get in touch with us today to discuss your car model customization needs and let us help you create the highest quality car models.

Support and Services:

CNC Car Model Technical Support and Service

We offer a wide range of technical support and services for our CNC Car Model. Our technical support staff are highly trained and experienced in providing the best possible assistance.

Technical Support

We provide technical support for our CNC Car Model, including:

Troubleshooting and resolving technical issues

Assisting with set-up and installation

Providing product information

Advising on best practices

Service

We are committed to providing excellent service for our CNC Car Model, which includes:

Regular maintenance and servicing

Replacement of defective parts

Full warranty coverage

Repairs and replacements

Packing and Shipping:

Packaging and Shipping for CNC Car Model:

The CNC Car Model will be securely packaged in a box with sufficient cushioning material to prevent any damage during transit. The box

will be sealed for extra security and further protection from the elements. The product will be shipped via a reliable courier service, with tracking information provided to the customer to ensure safe and timely delivery.

FAQ:

Q: What is the brand name of the CNC car model?

A: The brand name of the CNC car model is Industrial Man.

Q: What is the model number of the CNC car model?

A: The model number of the CNC car model is OEM.

Q: Where is the CNC car model produced?

A: The CNC car model is produced in Guangdong, China.

Q: What is the purpose of using CNC car model?

A: The CNC car model is used to produce car parts with precise measurements.

Q: What materials can be used with the CNC car model?

A: The CNC car model can be used with a variety of materials, such as plastic, aluminium, and steel.
