

3D Printing Scale CNC Car Model Vacuum Plating Customized

Our Product Introduction

for more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-30work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 500Pcs/ Month

Product Specification

- Accuracy: 0.01mm
- Color: Color Customization
- Controller: CNC
- Material: Composite Material
- Model: CNC Car Model
- Technology: Color Customization Vacuum Plating lamp/light
- Highlight: **3D Printing CNC Car Model, Vacuum Plating CNC Car Model, CNC 3d printing scale model cars**

Our Product

Product Description

Application scenario

The intelligent cabin is particularly popular in the past two years, and the first-level and second-level suppliers of automobile enterprises in the field of new energy vehicles use the intelligent model cabin to display automotive electronics, such as automobile electric drive, automobile wiring

harness, automobile display and other auto parts. New energy vehicles look and traditional cars, oil vehicles are not much different in essence, new energy vehicles and oil vehicles are still different in many places. Therefore, many auto parts companies will do a similar car model in the intelligent model installed on their own parts, in the exhibition, car research institute, their own company exhibition hall placed intelligent carrier model, show the company's professional knowledge, show the company's new energy auto parts so that the demand of car companies can more intuitively see the feasibility of physical objects and performance.
