High Speed CNC Car Model Hard RC Car Printed 3D Alloy Body

Our Product Introduction

For more products please visit us on lathecncmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial-Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-30 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5Pcs/ Month

Product Specification

- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Surface Treatment: Painting;chrome Plating;slik Screen;polish;highly Polished Etc
- Micro Machining Or Not: Micro Machining
- Item: Plastic Cnc 1:1 Car Model For Prototype
- Highlight: **Alloy Body CNC Car Model**, **3D Printed CNC Car Model**, **CNC rc car printed 3d**

Product Description:

The hard model of the car is also called the A-side verification model. This model is used in the automotive development process of the profile locking, A-side data freezing hard model in the five-axis CNC machining requirements are very high, in addition to the five-axis machining center accuracy requirements are extremely high, processing equipment accuracy to control at 0.02 positive and negative error to qualify. Hard model producer's engineering base and programming technology are more than 10 years, in the process of model selection is more critical, this model material is generally used to substitute wood quality useful block wood also useful paste wood, but the basic will choose 0.7 density of wood material to do hard model.

Industrial-Man offers Plastic CNC 1:1 Car Model for Prototype with the highest quality CNC Medical Parts, CNC Turned Components. Our CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, and Wire Cutter are all equipped with the latest and most advanced technologies to ensure the highest standards of quality and precision. Our experienced team of engineers and mechanics are dedicated to providing you with the best Prototype solutions for your needs. Our CNC Turned Components are guaranteed to meet the most exacting standards in the industry. We are proud to be the leading provider of CNC parts and accessories for the automotive industry.
Our CNC Car Model for Prototype is crafted with the utmost attention to detail and precision. It is made from the finest materials available, and is designed to be durable and reliable. We use advanced CMM and RIM technologies to ensure that each part meets our exacting specifications. Our CNC Car Model for Prototype is the perfect solution for your prototype needs, and will provide you with a high quality result that you can trust.
Industrial-Man's Plastic CNC 1:1 Car Model for Prototype is your perfect solution for creating a prototype that is both accurate and reliable. Our high quality parts and services are second to none, and we are proud to be the trusted source for CNC parts and accessories in Guangdong, China. We are committed to providing you with the best quality parts, services, and solutions for your Prototype needs.

Features:

Product Name: CNC Car Model
Surface treatment: Painting;chrome Plating;slik Screen;polish;highly Polished Etc
Brand Name: Industrial-Man
Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Micro Machining or Not: Micro Machining
Item: Plastic Cnc 1:1 Car Model For Prototype
CNC Machine Accessories: CNC Turned Components, CNC Turning Parts, CNC Parts

Technical Parameters:

Parameter	Description
Surface Treatment	Painting;chrome Plating;slik Screen;polish;highly Polished Etc
Item	Plastic Cnc 1:1 Car Model For Prototype
Place of Origin	Guangdong, China
Brand Name	Industrial-Man
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Micro Machining	Micro Machining
CNC Machines	German Made CNC Machines
CNC Turning Parts	CNC Turning Parts
CNC Hardware Parts	CNC Hardware Parts
CNC Machining Parts	CNC Machining Parts
CNC Milling Parts	CNC Milling Parts

Applications:

Industrial-Man's OEM Plastic CNC 1:1 Car Model For Prototype is a finely crafted model of a car that is made from German made CNC machines. This car model is highly polished with chrome plating and painting surface treatments. The model is also compatible with CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, and RIM equipment. It is a perfect representation of a real car and provides excellent detail for automotive parts and CNC hardware parts. With its precision CNC machining and highly polished finish, this car model is perfect for prototype applications.

Customization:

Industrial Man offers customized services for CNC Car Model, with Brand Name, Model Number, Place of Origin, Surface Treatment, Micro Machining, and Equipment. The Brand Name is Industrial Man, the Model Number is OEM, the Place of Origin is Guangdong, China. The Surface Treatment includes Painting, Chrome Plating, Silk Screen, Polish, and Highly Polished. The Micro Machining or Not is Micro Machining. The Equipment includes CMM, CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM. The Item is Plastic CNC 1:1 Car Model for Prototype. We specialize in CNC Turning Parts, CNC Engineering Machine Parts, and CNC Machine Accessories.

Support and Services:

CNC Car Model Technical Support & Services

We are committed to providing our customers with the best possible technical support and services for the CNC Car Model. Our team of experts is here to answer any questions and provide advice and guidance when needed.
We provide a range of technical support services, including:

Troubleshooting and technical support

Software updates

Hardware replacement

Online forums and FAQs

Live chat support
We also offer a range of professional services, such as:
Product customization
On-site installation and maintenance
Training and consulting
Data analysis and reporting
Third-party integration
If you have any questions or need assistance with your CNC Car Model, please contact us today. We are here to help.

Packing and Shipping:

Packaging and Shipping for CNC Car Model:
The CNC Car Model will be carefully packaged in a cardboard box.
The box will be filled with foam to provide extra cushioning and protection.
The box will be sealed with appropriate adhesive tapes.
The CNC Car Model will be shipped via air or sea freight, depending on the customer's needs.

FAQ:

Q&A

Q: What is the brand name of CNC Car Model?
A: The brand name of CNC Car Model is Industrial Man.
Q: What is the model number of CNC Car Model?
A: The model number of CNC Car Model is OEM.
Q: Where is the place of origin of CNC Car Model?
A: The place of origin of CNC Car Model is Guangdong, China.
Q: What are the features of CNC Car Model?
A: CNC Car Model has a number of features, such as high precision, high speed, high stability, low noise, low vibration, and long service life.
Q: What materials can CNC Car Model process?
A: CNC Car Model can process various kinds of materials, such as steel, aluminum, copper, and plastic.
