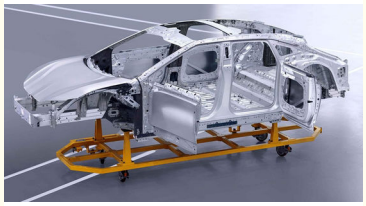
Precision Plastic CNC Car Model Prototype Machining White

Our Product Introduction

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial-Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-30 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5Pcs/ Month



Product Specification

- Item: Plastic Cnc 1:1 Car Model For Prototype
- Surface Treatment: Painting;chrome Plating;slik Screen;polish;highly Polished Etc
- Equipment: Punching Machine, Welding Equipment Measuring Equipment CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Micro Machining Or Not: Micro Machining
- Highlight: **Prototype Plastic CNC Car Model**, **Prototype Machining CNC Car Model**, **Prototype Machining cnc model car**

Product Description:

The car body in white is also called the iron body, which is the car shell without assembling any spare parts. This kind of white car has more demand in the car trial production. More than 2,000 kinds of tests need to be done before the production of the car. All the parts in the car need to be loaded with the body in white to form a complete car, and then the trial production car is used to do more than 2,000 kinds of experiments, and the test is verified in the test, the reasons are found in the trial production, and the problem points of non-compliance are found out and reformed until the safety standards of all cars are fully qualified. The trial production of car body in white will lose its use. The trial production of car body in white is still more with rapid die stamping! In recent years, it has been gradually replaced by all-in-one 3d printing. Our company has a unique advantage in the trial production of body in white! The company has 2500 tons of hydraulic press welding lines and 50 sets of metal 3d printing machines with double laser heads to fully support the trial production and processing services of white car sound.

Our Plastic CNC 1:1 Car Model For Prototype is a precision-made product, crafted with German made CNC machines to ensure top-notch quality. It is made of high-quality material and comes with various surface treatments to choose from, such as painting, chrome plating, silk screen, polishing and highly polished, all of which are processed with strict quality control. We use the most advanced CNC (5 axis) machines, as well as CMM, CNC mill & turn & lathe, wire cutter and RIM, to ensure the best quality of CNC turning parts and CNC hardware parts for our product. It is manufactured in Guangdong, China and adheres to strict quality control standards, making it a reliable and trustworthy product.

Features:

Product Name: CNC Car Model
Micro Machining or Not: Micro Machining
Place of Origin: Guangdong, China
Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Item: Plastic Cnc 1:1 Car Model For Prototype
Brand Name: Industrial-Man
CNC Hardware Parts
CNC Engineering Machine Parts

Technical Parameters:

Parameter	Details
Place of Origin	Guangdong, China
Brand Name	Industrial-Man
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Item	Plastic Cnc 1:1 Car Model For Prototype
Micro Machining or Not	Micro Machining
Surface treatment	Painting; Chrome Plating; Slik Screen; Polish; Highly Polished Etc
CNC Machine Accessories	Yes
CNC Turned Components	Yes
CNC Hardware Parts	Yes

Applications:

Industrial-Man's Plastic CNC 1:1 Car Model Prototype, with model number OEM, is designed for use in various fields. It is made in Guangdong, China, with advanced CNC hardware parts, CNC engineering machine parts, CNC turning parts, and high-precision micro machining. The surface treatment of this car model prototype includes painting, chrome plating, silk screen, polishing, and highly polished. It is the perfect tool for CNC car model prototyping, providing precision and accuracy for any CNC car model project.
The car model prototype's brand name, Industrial-Man, is renowned for its top quality and outstanding performance. It has demonstrated its capability in many CNC car model projects, and its reputation for delivering reliable and accurate results is well-known. From product design, engineering, and manufacturing, Industrial-Man's CNC car model prototype has been providing precise and reliable results for its customers. With its advanced CNC engineering machine parts and CNC turning parts, the CNC car model prototype ensures the accurate and precise results required for any CNC car model project.
In addition to its excellent precision and accuracy, Industrial-Man's CNC car model prototype is also highly reliable. Its CNC hardware parts are made with the highest quality materials, and its surface treatments are designed to ensure its durability in any environment. With its robust construction, the CNC car model prototype can withstand extreme temperatures, vibrations, and other environmental factors. It is the perfect tool for any CNC car model project, providing reliable and accurate results.
Industrial-Man's CNC car model prototype is the perfect choice for any CNC car model project. With its advanced CNC hardware parts, CNC engineering machine parts, CNC turning parts, and high-precision micro machining, this car model prototype provides the precision and accuracy you need. Its reliable construction and surface treatments make it the perfect tool for any CNC car model project. Industrial-Man's CNC car model prototype is the perfect choice for your CNC car model project.

Customization:

Customized CNC Car Model Service by Industrial-Man

Our CNC car model service offers custom CNC machine automotive parts and CNC machine accessories with OEM model number (Industrial-Man). All the parts are made from high quality materials and are machined with precision CNC (5 Axis) machines, CNC mill & turn & lathe, wire cutter, RIM etc. The surface treatment includes painting, chrome plating, silk screen, polish and highly polished etc. At Industrial-Man, we specialize in CNC turning parts for automotive industry. Our products are manufactured at our factory in Guangdong, China and are rigorously tested to ensure the highest quality. With our experienced team and advanced technology, we are confident to provide the best CNC car model service to our customers.

Support and Services:

Technical Support and Service for CNC Car Model
We offer technical support and service for our CNC Car Model. Our team of experts are available to assist you in any technical issue you may have with the product. We can provide solutions to common problems, answer any questions, and provide advice on the best way to use the product.
Our technical support team is available 24/7 through phone, email, and live chat. We also have a knowledge base of helpful articles and tutorials to help you resolve any issues you may have.
If the issue cannot be resolved, we offer a warranty on all our products, and can arrange a repair or replacement of the product if necessary.

Packing and Shipping:

Packaging and Shipping for the CNC Car Model:
The CNC Car Model is packaged in a custom box with the following specifications:
Dimensions: 10in x 8in x 6in
Material: Corrugated Cardboard
Weight: 2 lbs
The CNC Car Model is shipped via FedEx Ground with an estimated delivery time of 5-7 business days.

FAQ:

Q1: What is CNC Car Model?

A1: CNC Car Model is a product of Industrial Man, with model number OEM. It is manufactured in Guangdong, China.

Q2: What are the features of CNC Car Model?

A2: CNC Car Model has various features, including a high-precision CNC machining process, a durable and reliable surface, and a custom design.

Q3: What materials is CNC Car Model made of?

A3: CNC Car Model is made of high-quality metal materials such as aluminum, steel, and stainless steel.

Q4: How is CNC Car Model tested?

A4: CNC Car Model undergoes rigorous quality control tests to ensure its precision and reliability. It is also tested for safety and durability.

Q5: Does CNC Car Model come with a warranty?

A5: CNC Car Model does not come with a warranty. However, our products are guaranteed to be of high quality and reliable performance.
