

Smart CNC Model Car 3D Printable Prototyping Machining

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial-Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-30 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5Pcs/ Month

Product Specification

- Surface Treatment: Painting;chrome Plating;slik Screen;polish;highly Polished Etc
- Micro Machining Or Not: Micro Machining
- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Item: Plastic Cnc 1:1 Car Model For Prototype
- Highlight: **Prototyping Machining cnc model car, 3D Printable cnc model car, Prototyping 3d printable model cars**

Product Description

Product Description:

Color models are generally used for automotive development, automotive interior colors, and material definition. Cars are sold in many versions, such as premium version, intermediate version, luxury version. Different types of versions of the same model are basically the difference between power and interior, the lower version of the model basically interior are hard materials, the high version of the model will have a partial interior will be made of soft cladding, and the interior of the top Han luxury version of the model is basically covered with soft cladding. Therefore, when the car design and development, the interior package color model will make several different colors, different materials, different processes, different surface treatment of the car interior color model.

Industrial-Man's CNC Car Model is a perfect choice for prototyping needs. This highly precise, custom-made car model is perfect for prototype production. Equipped with CMM, CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, and RIM, our CNC Car Model is machined with extreme accuracy and precision to create an exact replica of your design. Our expert team ensures that our CNC Car Model meets all your requirements. The surface treatment options for our CNC Car Model include painting, chrome plating, silk screening, polishing, and highly polished to provide a smooth and glossy finish. Our CNC Car Model is not only suitable for prototyping, but also for making CNC Turned Components, CNC Bicycle Parts, CNC Turning Parts, and CNC Machining Parts. Industrial-Man is your one-stop shop for all your CNC Car Model needs.

Features:

Product Name: CNC Car Model
Place of Origin: Guangdong, China
Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Brand Name: Industrial-Man
Micro Machining or Not: Micro Machining
Item: Plastic Cnc 1:1 Car Model For Prototype
CNC Machine Accessories
German Made CNC Machines
CNC Medical Parts

Technical Parameters:

Item	Parameters
Product Name	Plastic Cnc 1:1 Car Model For Prototype
Micro Machining or Not	Micro Machining
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Surface treatment	Painting;chrome Plating;silk Screen;polish;highly Polished Etc
Brand Name	Industrial-Man
Place of Origin	Guangdong, China
Keywords	CNC Bicycle Parts, CNC Medical Parts, CNC Engineering Machine Parts

Applications:

Industrial-Man's plastic CNC 1:1 car model is a highly precise prototype that is the perfect choice for a variety of applications. Its OEM model number and Guangdong, China origin ensure its superior quality. The car model is made with the highest precision available and features CNC turning parts, German made CNC machines, and micro machining. Customers can choose from a variety of surface treatments, including painting, chrome plating, silk screen, and polish or highly polished finishes. With its superior quality and precision, Industrial-Man's plastic CNC 1:1 car model is the perfect choice for a variety of applications.

Customization:

CNC Car Model Customization Service Provided by Industrial-Man

Industrial-Man provides customization services for CNC car models. Our custom CNC car models are made of high-quality material with OEM model number and custom surface treatments, such as painting, chrome plating, silk screen, polish, and highly polished. Our micro-machining equipment and CNC (5 Axis) machines, CNC mill & turn & lathe, wire cutter, and RIM provide precision CNC car parts for automotive, bicycle, and other car models.

We specialize in CNC machine automotive parts, CNC machine bicycle parts, and other CNC car parts. Our team of skilled professionals provides reliable services and fast delivery to meet all your needs. Our quality control methods ensure that every piece of CNC car parts is of the highest quality. Let Industrial-Man provide you with the best customized CNC car model products.

Support and Services:

CNC Car Model Technical Support and Service

At CNC Car Model, we strive to provide our customers with the highest quality technical support and service. Our professional team of experts is available to assist you with any questions or concerns you may have. We can help you with installation, troubleshooting, repairs, upgrades, and more. We also offer a wide range of services, such as custom design and fabrication, 3D printing, and prototyping. If you need assistance, please contact us at [insert contact information]. We look forward to hearing from you and helping you with any technical issues you may have.

Packing and Shipping:

Packaging and Shipping of CNC Car Model:

The CNC Car Model will be securely packaged to ensure that no damage occurs during shipping. The packaging will include a strong cardboard box designed to absorb shocks and vibrations, and the model itself will be wrapped in foam or bubble wrap for extra protection. The package will also include a shipping label clearly marked with the destination address.

The CNC Car Model will be shipped via a reliable delivery service with a tracking number provided. The delivery will include door-to-door service and require a signature upon delivery for added security.

FAQ:

Q1: What is Industrial Man CNC Car Model?

A1: Industrial Man CNC Car Model is a model made by Industrial Man with model number OEM and origin from Guangdong, China.

Q2: What features does Industrial Man CNC Car Model have?

A2: Industrial Man CNC Car Model has features such as high precision, durability, and long service life.

Q3: What materials are used to make Industrial Man CNC Car Model?

A3: Industrial Man CNC Car Model is made with high quality materials such as aluminum, steel, and plastic.

Q4: What is the size of Industrial Man CNC Car Model?

A4: Industrial Man CNC Car Model has a size of 30x20x10 cm.

Q5: Is Industrial Man CNC Car Model easy to operate?

A5: Yes, Industrial Man CNC Car Model is easy to operate and requires minimal maintenance.
