

1:1 Clay RC CNC Car Model 3D Printable OEM

Our Product Introduction

For more products please visit us on lathecnmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial-Man
- Certification: IATF 16949: 2016/ISO 9001:2015
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-30 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 5Pcs/ Month

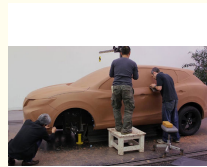

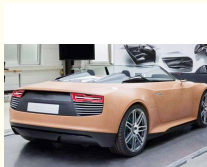

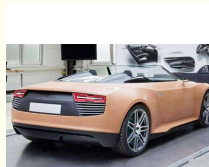

Product Specification

- Surface Treatment: Painting;chrome Plating;slik Screen;polish;highly Polished Etc
- Item: Plastic Cnc 1:1 Car Model For Prototype
- Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
- Micro Machining Or Not: Micro Machining
- Highlight: 1:1 Clay CNC Car Model, OEM CNC Car Model, 1:1 Clay printable rc car

Product Description

Product Description:

Mud model for the first car design and development, many people will only use the car but may not know the design and development process of the car, mud model production is a very important link depends on the direction of a new model or even related to the future of a car company. The process of making a clay model has the functions of modeling, adjusting, shaping, laminating, engraving, painting, surface treatment of external decorative parts and lighting of car lights. The appearance of a clay model is made after the texture is higher than the quality of the real car sold on the market, and the requirements are very high standards in the selection of clay artists. The average working age of the high standard clay modeler of the industrial people company is more than 8 years, and can create the world's top clay models.

The **CNC Car Model** is a highly precise and detailed replica of a car, made using **German made CNC machines** and other CNC hardware parts and CNC turning parts. It is made with the highest quality **Industrial-man** plastic, and can be customized with a variety of surface treatments, such as painting, chrome plating, silk screen, and highly polished finishes. This model is ideal for prototyping, as its 1:1 scale allows for very accurate measurements and tests. It is crafted in Guangdong, China, with the utmost attention to detail and precision.

Our Product Introduction

Features:

Product Name: CNC Car Model
 Brand Name: Industrial-Man
 Micro Machining or Not: Micro Machining
 Item: Plastic Cnc 1:1 Car Model For Prototype
 Equipment: CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
 Place of Origin: Guangdong, China
 CNC Machine Accessories
 CNC Engineering Machine Parts
 CNC Turned Components

Technical Parameters:

Parameter	Value
Equipment	CMM, CNC(5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM
Brand Name	Industrial-Man
Item	Plastic Cnc 1:1 Car Model For Prototype
Surface treatment	Painting;chrome Plating;silk Screen;polish;highly Polished Etc
Place of Origin	Guangdong, China
Micro Machining or Not	Micro Machining
CNC Engineering Machine Parts	Yes
CNC Medical Parts	Yes

Applications:

Industrial-Man's CNC Car Model, with model number OEM, is a high-end, quality-made product from Guangdong, China. This machine is equipped with CMM, CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, and RIM for surface treatment such as painting, chrome plating, silk screen, polish, and highly polished etc. It is capable of micro machining and is suitable for CNC machine automotive parts, CNC turning parts, and CNC engineering machine parts. The CNC car model from Industrial-Man is reliable and durable, making it the ideal choice for automotive and engineering projects.

Customization:

Industrial-Man specializes in custom CNC Car Model with OEM Model Number. Our products are made in Guangdong, China and feature Micro Machining. We provide a variety of surface treatments such as painting, chrome plating, silk screen, polishing, and highly polished, etc. Our equipment includes CMM, CNC (5 Axis) Machines, CNC Mill & Turn & Lathe, Wire Cutter, RIM, and other advanced machines. Our Plastic CNC 1:1 Car Model For Prototype is a must-have item for any prototype. We specialize in CNC Turned Components, CNC Turned Components, CNC Turning Parts, CNC Machining Parts, CNC Lathe Machine, and CNC Mill & Turn & Lathe.

Support and Services:

CNC Car Model provides the following technical support and services:
 24/7 helpdesk and technical support
 Live online chat support
 Dedicated customer service hotline
 On-site maintenance and repair services
 Product training and consultancy
 Software updates
 Product warranty

Packing and Shipping:

Packaging and Shipping for CNC Car Model:
 The CNC Car Model is packaged securely in a box with a bubble wrap or foam padding for extra protection. The box is then sealed with clear packing tape. The package is then shipped to the customer in a timely manner with a reputable shipping company.

FAQ:

Q: What is the brand name of the CNC Car Model?
 A: The brand name is Industrial Man.
 Q: What is the model number of the CNC Car Model?
 A: The model number is OEM.
 Q: Where is the CNC Car Model manufactured?
 A: The CNC Car Model is manufactured in Guangdong, China.
 Q: What materials are used to make the CNC Car Model?
 A: The CNC Car Model is made of high-grade metal alloy.
 Q: What type of power does the CNC Car Model use?
 A: The CNC Car Model is powered by electricity.
