

Aluminum CNC Machining Service OEM CNC Aluminum Parts Milling Turning Aluminum Parts

Our Product Introduction

for more products please visit us on lathecncmachining.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Shenzhen Industrial Man
- Certification: ISO9001 IATF16949
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Delivery Time: 7-15 work days
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram
- Supply Ability: 100000Pcs/ Month

Product Specification

- Lead Time: 7-15 Days
- Processing Method: CNC Turning
- Main Process: CNC Turning / CNC Milling
- Tolerance: ± 0.01 -- ± 0.05 mm
- Packing: Carton
- Machining: Available
- Drawing Format: 3D/CAD/DWG//STEP/PDF
- Equipment: 3/4/5 Axis Center Machining
- Tooling: Made By Ourselves
- Application: Automotive, Aerospace, Medical, Electronic, Machinery, Etc.
- Highlight: **OEM CNC Aluminum Parts, CNC Machining Service Aluminum Parts, Precision Turning Aluminum Parts**

Product Description

CNC Turning Machining Parts are precision CNC machining metal parts with CNC machining technology. These parts are produced with high precision tolerance up to 0.01- ± 0.005 mm, which can meet the most demanding requirements. Our CNC turning machining parts are widely used in various industries, such as medical, automotive, aerospace, defense, etc. The high-precision CNC turning machining parts can ensure the accuracy and consistency of the products, and greatly improve the efficiency of the industry.

Our

We also provide custom CNC turning machining services according to customer's drawings and requirements. Sample is available and micro machining is also supported. Our advanced CNC turning machining technology and experienced technical team can guarantee the quality and accuracy of the products. With the reliable quality and reasonable price, our CNC turning machining parts are well received by customers all over the world.

Features:

- 1.Product Name: CNC Machining
- 2.MOQ: 1 Piece
- 3.Tolerance:0.01-0.05mm
- 4.Material: Stainless steel,Brass, Copper, Carbon steel,Aluminum,alloy ,zinc 5.etc./According To Your Requirement
- 5.Color:Silver/Blue-White/Black/Yellow/According To Your Requirement
- 6.Surface Finishing: Anodizing, Polishing, Powder coating, Passivation, 8.Sandblasting, Nickal plating,Zinc plating, Chrome plating, Heat treatment,Oxidation as per customer's requirement

Technical Parameters:

Parameters	Details
Certification	IATF 16949: 2016/ISO 9001:2015
Tolerance	0.01- +/-0.005mm
Our Service	CNC turning, CNC milling, Drilling, Grinding, Spinning, Wire-EDM Cutting, Stamping, Laser Cutting, Bending, Die Casting,Extrusion, Injection Molding
Drawing Format	X_T/jpg/pdf/dxf/dwg/igs/stp/step/stl,etc
Brand Name	INDUSTRIAL-MAN
CNC Machining or Not	CNC Machining
Delivery Time	3-5 Days
OEM/ODM	Accepted
Product Name	CNC Lathe Turning Parts, CNC Machining Turning Parts, CNC Turning Machining Parts
Material Capabilities	Stainless steel,Brass, Copper, Carbon steel,Aluminum,alloy,zinc etc./According To Your Requirement

23+ years
CNC MACHINING
OEM / ODM SERVICE

3 Different factories
50,000 Square meters building
300+ Employee

1. OEM / ODM Service
2. Design/Technician/QA/QC to support
3. Quality Certification
4. Automatic Production & High Efficiency

WORKSHOP

OEM/ODM AVAILABLE

Customers Worldwide

Products are shipped to over 100 countries and regions around the world for OEM and ODM customers as well as own brand.

INDUSTRIAL MAN

If you have any ideas

we can make it come true

One stop machining service factory

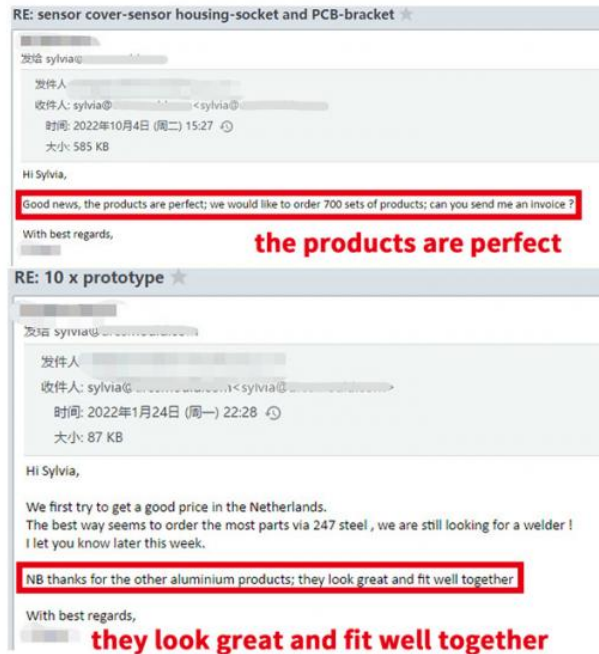

Custom CNC Service

One-stop Mass Customization

Customer mail

FAQ:

Q1: What is CNC Turning Machining Parts?

A1: CNC Turning Machining Parts is a kind of part that is machined by using CNC technology provided by Industrial Man with OEM Model Number, which is made in Guangdong, China.

Q2: What material of CNC Turning Machining Parts do you provide?

A2: We provide CNC Turning Machining Parts made of stainless steel, aluminum alloy, copper alloy, carbon steel as well as other special materials.

Q3: What is the process of CNC Turning Machining Parts?

A3: The process of CNC Turning Machining Parts includes CNC turning, milling, drilling, tapping, honing, polishing, grinding, etc.

Q4: What is the application of CNC Turning Machining Parts?

A4: CNC Turning Machining Parts can be used in various industries including automotive, aerospace, medical, robotics, food machinery and other industrial fields.

Q5: What is the lead time of CNC Turning Machining Parts?

A5: The lead time of CNC Turning Machining Parts depends on the quantity, complexity and material of the parts. Generally, the lead time is around 4-5 weeks.
