

OEM/ODM Accepted CNC Turning Machining Parts with IATF 16949 2016/ISO 9001 2015 Certification and Micro Machining

Our Product Introduction

for more products please visit us on lathecnrmachining.com

Basic Information

- Place of Origin: Guangdong, Shenzhen
- Brand Name: Industrial Man
- Model Number: OEM

Product Specification

- Type: Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
- Drawing Format: STP . STEP . IGS . PRT . X_T
- Surface Treatment: Customer's Request
- Equipment: 3/4/5 Axis Center Machining
- MOQ: 1 Piece
- Material Capabilities: Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
- Product Name: CNC Turning Machining Parts
- Highlight: **OEM CNC turning machining parts, IATF 16949 certified CNC parts, micro machining turning components**

Product Description

OEM/ODM Accepted CNC Turning Machining Parts with IATF 16949 2016/ISO 9001 2015 Certification and Micro Machining

Our Product

Product Attributes

Attribute	Value
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
Drawing Format	STP . STEP . IGS . PRT . X_T
Surface treatment	Customer's Request
Equipment	3/4/5 Axis Center Machining
MOQ	1 Piece
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Product Name	CNC Turning Machining Parts

Product Description

Our precision-engineered CNC Turning Machining Parts are the perfect solution for your manufacturing needs. Whether you require 5 Axis CNC Machining Parts or Custom CNC Machining Parts, we have you covered.

Our CNC Turning Machining Parts are expertly crafted to meet your specifications and deliver exceptional performance. With our state-of-the-art technology and skilled team of professionals, we ensure that each part is machined with precision and accuracy.

One of the key advantages of our CNC Turning Machining Parts is their versatility. Whether you need micro machining or not, our parts are designed to meet your requirements. We understand the importance of precision in manufacturing, which is why our CNC Turning Machining Parts are crafted with the highest level of accuracy.

When it comes to compatibility, our CNC Turning Machining Parts support a variety of drawing formats including STP, STEP, IGS, PRT, and X_T. This ensures seamless integration with your existing systems and processes.

Surface treatment is also a crucial aspect of our CNC Turning Machining Parts. We offer surface treatment options based on customer's requests, allowing you to customize the finish of the parts to suit your specific needs.

Features

- Product Name: CNC Turning Machining Parts
- Surface treatment: Customer's Request
- Equipment: 3/4/5 Axis Center Machining
- Brand Name: INDUSTRIAL-MAN
- Certification: IATF 16949: 2016/ISO 9001:2015
- OEM/ODM: Accepted

Technical Parameters

Technical Parameter	Description
Material Capabilities	Aluminum, Brass, Bronze, Copper, Hardened Metals, Precious Metals, Stainless Steel, Steel Alloys
Drawing Format	STP, STEP, IGS, PRT, X_T
MOQ	1 Piece
Surface treatment	Customer's Request
Type	Broaching, DRILLING, Etching / Chemical Machining, Laser Machining, Milling, Other Machining Services, Turning, Wire EDM, Rapid Prototyping
Certification	IATF 16949: 2016/ISO 9001:2015
Tolerance	0.01 - +/-0.005mm
Micro Machining or Not	Micro Machining
Equipment	3/4/5 Axis Center Machining
OEM/ODM	Accepted

Applications

Our CNC Turning Machining Parts are versatile components that can be used in a wide range of industries including aerospace, automotive, electronics, and medical equipment manufacturing.

With the ability to be produced using 3/4/5 Axis Center Machining equipment, these parts offer high-quality and precise results. The various machining types available ensure that these parts can meet a diverse set of requirements.

Whether it's creating intricate components for aerospace systems or producing precise parts for medical devices, our CNC Turning Machining Parts excel in delivering top-notch performance. The parts can be customized to meet customer specifications, including surface treatments based on the customer's request.

Support and Services

- Expert troubleshooting assistance for any issues related to CNC turning machining parts
- Guidance on optimizing the performance of the CNC turning parts
- Provision of detailed product specifications and operational manuals
- Regular maintenance and servicing recommendations
- Training sessions available for operators
