

Custom OEM Precision Tolerance 0.01-0.05mm ISO9001:2015 Certified 5-Axis CNC Milling Sheet Metal Welding Parts and Auto Stamping Parts

Our Product Introduction

for more products please visit us on lathecnrmachining.com

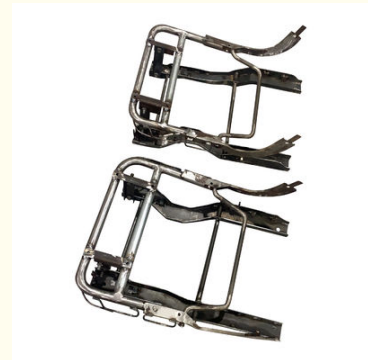

Basic Information

- Place of Origin: China
- Brand Name: Shenzhen Industrial Man
- Certification: ISO9001: 2015
- Minimum Order Quantity: 1
- Price: \$0.19-0.99

Product Specification

- Tolerance: 0.01-0.05mm
- Drawing Format: 2D/(PDF/CAD)3D(IGES/STEP)
- Material: Aluminum, Brass, Bronze, Copper, Stainless Steel
- Size: Customer's 3D Drawing
- Surface Treatment: Anodizing, Sandblasting, Painting, Powder Coating, Electroplating, Silk Printing, Brushing, Polishing, Laser Engraving
- Aluminum Alloy: 5052/6061/6063/7075 Etc
- Brass Alloy: 3602/2604/h59/h62/etc
- Stainless Steel: 303/304/316/412/etc
- Steel Alloy: Carbon/Die Steel/etc
- Other Materials: Lucite/Nylon/Bakelite/etc
- Testing Equipment: Digital Height Gauge, Caliper, Throat

Product Description

Custom OEM Machining Service - Steel Stamping, Bending & Forming for Automotive Applications

Our Product

Our Manufacturing Capabilities

Services	CNC Precision Milling & Turning Machining Rapid Prototyping Plastic Injection Molding Metal Stamping Die Casting Silicone & Rubber Molding Aluminum Extrusion Mold Fabrication
Materials	Aluminum Alloy: 5052/6061/6063/7075 etc. Brass Alloy: 3602/2604/H59/H62 etc. Stainless Steel: 303/304/316/412 etc. Steel Alloy: Carbon/Die Steel etc. Special Materials: Lucite/Nylon/Bakelite etc. Plastic, Wood, Silicone, Rubber Custom materials per customer requirements
Surface Treatments	Anodizing, Sandblasting, Painting, Powder coating, Electroplating, Silk Printing, Brushing, Polishing, Laser Engraving
Drawing Formats	X_T, JPG, PDF, DXF, DWG, IGS, STP, STEP, STL
Quality Assurance	ISO9001:2015 Certified, TUV Certified
Packing	Foam, Carton, Wooden boxes, or as per customer requirements
Delivery	DHL, FEDEX, UPS, TNT, EMS, SF or according to customer requirements

Company Profile

SHENZHEN INDUSTRIAL-MAN RP&M CO.LTD

INDUSTRIAL-MAN has been a pioneer of additive manufacturing and prototyping expertise for over 18 years. Our in-house workshop encompasses the latest rapid prototyping technologies and low volume production capabilities, serving as an integral part of advanced manufacturing for new product development.

With 19 years of experience using and developing this technology, our in-house experts at INDUSTRIAL-MAN are available to advise you on any aspect of prototyping and batch manufacturing to ensure the highest quality parts are supplied.

We operate nearly 60 sets of advanced machinery including 5-Axis CNC Milling Machines from Germany, 3D Laser Rapid Printers from USA, precise CNC Machines, and 3D Testing Quality Machines. Our services span automotive parts, medical devices, electronics, and communication equipment, with an automotive annual output exceeding 50 million units.

Production Workshop

Packing & Delivery

Packing Standards

All parts undergo thorough inspection before delivery. Components are wrapped with white paper, foam, and air bubble sheet, then placed in Industrial-man custom-made cartons or wooden boxes for optimal protection during transit.

Delivery Options

We utilize common international express services (DHL/UPS/Fedex) for delivery. Expedited shipping options are available at higher cost (1-2 days vs standard 3-4 days). Customers may also provide their own express account for shipping.

Frequently Asked Questions

Q: Are you a trading company or manufacturer?

A: We are a manufacturer with our own factory. We welcome visits to our production facilities.

Q: How can I get a quotation? What information do I need to provide?

A: To receive an accurate quote, please provide:

2D drawings (PDF, DWG, DXF) or 3D files (STEP, STP, IGS)

Material specifications

Surface finishing requirements

Order quantity

Any additional special requirements

Q: What customization options do you offer?

A: We offer comprehensive customization using various manufacturing processes including CNC machining (milling & turning), sheet metal fabrication, die casting, vacuum casting, plastic injection molding, forging, and 3D printing. We also provide secondary services like laser engraving, silk printing, CNC engraving, and etching.

Q: What if I receive defective parts?

A: If you receive defective or incorrect parts, please send photos of the issues. Our engineering and quality control teams will investigate and respond within 24 hours. We will replace any defective parts caused by production errors or shipping damage at no additional cost.

Q: What packaging methods do you use?

A: Small/light products are packed in standard export cartons with soft plastic foam. Large/heavy items receive foam protection plus thin film wrapping before being secured in quality wooden cases. We can also accommodate specific customer packaging requirements.
