

## High Precision CNC Machining Parts with Tolerance $\pm 0.02\text{mm}$ and ISO9001:2015 Certified for Industrial Equipment

Our Product Introduction

for more products please visit us on [lathecncmachining.com](http://lathecncmachining.com)

### Basic Information

- Place of Origin: China
- Certification: ISO9001
- Minimum Order Quantity: 1
- Price: \$0.01-0.03

### Product Specification

- Material: Aluminum Alloy
- Surface Treatment: Sandblasting
- Tolerance:  $\pm 0.02\text{mm}$
- Equipment: CNC Milling Machine
- Process: CNC Milling
- Material Options: 5052/6061/6063/7075 Etc
- Brass Options: 3602/2604/h59/h62/etc
- Stainless Options: 303/304/316/412/etc
- Steel Options: Carbon/Die Steel/etc
- Other Materials: Lucite/Nylon/Bakelite/etc
- Drawing Format: X\_T/jpg/pdf/dxf/dwg/igs/stp/step/stl
- Testing Equipment: Digital Height Gauge, Caliper, Three Coordinate Measuring Machine

### Product Description

OEM Custom Low Volume Aircraft Parts Machining

Our Product

Our Services	CNC Precision Milling Machining
	CNC Precision Turning Machining
	Rapid Prototyping
	Plastic Injection Mould
	Metal Stamping
	Die Casting
	Silicone And Rubber Mould
	Aluminum Extrusion
	Mould Fabrication
Material	Aluminum Alloy: 5052/6061/6063/7075 etc
	Brass Alloy: 3602/2604/h59/h62/etc
	Stainless Steel Alloy: 303/304/316/412/etc
	Steel Alloy: Carbon/Die Steel/etc
	Other Special Materials: Lucite/Nylon/Bakelite/etc
	Plastic, Wood, Silicone, Rubber, or as per customer requirements
Surface Treatment	Anodizing, Sandblasting, Painting, Powder coating, Electroplating, Silk Printing, Brushing, Polishing, Laser Engraving
Drawing Format	X_T/jpg/pdf/dxf/dwg/igs/stp/step/stl, etc
Service Project	Project design, production and technical service, mould development and fabrication
Testing Machine	Digital Height Gauge, caliper, Three Coordinate measuring machine, projection machine, roughness tester, hardness tester
Quality Assurance	ISO9001:2015 Certified TUV
Packing	Foam, Carton, Wooden boxes, or as per customer's requirements
Delivery	DHL, FEDEX, UPS, TNT, EMS, SF or according to customers' requirement

## Company Profile

### SHENZHEN INDUSTRIAL-MAN RP&M CO.LTD

**INDUSTRIAL-MAN** has been a pioneer of additive manufacturing and prototyping expertise for over 18 years. Our in-house workshop encompassing the latest rapid prototyping technologies and low volume production capabilities is an integral part of advanced manufacturing for new product development.

The ability to produce accurate parts at a low cost is essential for proof of concept and component testing before more significant tooling investment is required. The speed of the manufacturing enables improved timescales for the introduction of the product into market.

With 19 years' experience using and developing this technology, our in-house experts at **INDUSTRIAL-MAN** are available to advise you on any aspect of prototyping and batch manufacturing to ensure that the highest quality parts are supplied.

**INDUSTRIAL-MAN** owns almost 60 sets of machines including 5-Axis CNC Milling Machine from Germany, 3D Laser Rapid Printer from USA, precise CNC Machines, 3D Testing Quality Machine and other hi-tech equipment. We offer services for Car parts, Medical, Electronics, Communication and more. Automotive annual output exceeds 50 million units.

## Product Showcase

## Certifications

## Factory & Team

## Packing & Delivery

### Packing

All parts undergo thorough inspection before delivery. Components are wrapped with white paper, foam, and air bubble sheet, then placed in Industrial-man custom-made cartons or wooden boxes for secure transportation.

### Delivery

We utilize common international carriers including DHL, UPS, FedEx for standard shipments. For urgent requirements, we offer expedited official shipping options (normal: 3-4 days, official: 1-2 days). Customers may also provide their own carrier account for shipment.

## Frequently Asked Questions

### 1. Are you a trading company or factory?

We are a manufacturer with our own factory. We welcome visits to our production facilities.

### 2. How can I get a quotation? What information do I need to provide?

Please provide 2D drawings (PDF, DWG, DXF) or 3D files (STEP, STP, IGS)

Material specifications

Surface finishing requirements

Order quantity

Any additional special requirements

### 3. What customization services do you offer?

We specialize in multiple manufacturing processes including CNC machining, milling, turning, sheet metal fabrication, die casting, vacuum casting, plastic injection molding, forging, and 3D printing. We also offer secondary services like laser engraving, silk printing, CNC machining engraving, and etching.

### 4. What should I do if I receive defective parts?

If you receive defective or incorrect parts, please send photos of the issues. Our engineering and quality control teams will investigate and respond within 24 hours. We will replace any defective parts due to production errors or shipping damage at no additional cost.

### 5. What packaging standards do you use?

For small components, we use standard export cartons with protective foam inserts. Larger/heavier items receive foam wrapping followed by plastic film and secure wooden crating. We can accommodate specific packaging requests from customers.
