

Precision Plastic 3D Printing Service with $\pm 0.1\text{mm}$ Tolerance, STL File Support, and Customizable Structures

Our Product Introduction

for more products please visit us on lathecnmachining.com

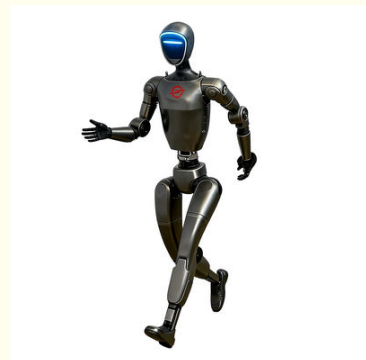

Basic Information

- Brand Name: Industrial Man
- Model Number: OEM

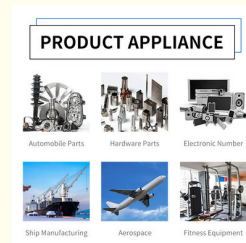

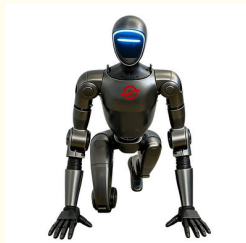

Product Specification

- Port: Shenzhen
- Highlight: Resin 3D Printing Service
- Customization Options: Size, Color, Design
- File Formats Accepted: STL, OBJ, STEP, IGES, And More
- Support Structures: Yes
- Lead Time: 1-2 Weeks
- Material Capabilities: Nylon, ABS, Rubber, Resin, Plastic
- Plastic Material: Stainless Steel, Aluminum
- Highlight: $\pm 0.1\text{mm}$ Tolerance Plastic 3D Printing Service, STL File Plastic 3D Printing Service, Customizable Structures Plastic 3D Printing Service

Our Product Description

Product Description

STL File Formats Accepted Plastic 3D Printing Service with $\pm 0.1\text{mm}$ Tolerance and Support Structures Customizable

Product Description

Our Plastic 3D Printing Service delivers precision resin 3D printing solutions for industrial applications. We utilize premium materials including stainless steel, aluminum, nylon, ABS, rubber, and resin to produce durable, high-quality components tailored to your specifications.

With rigorous quality control inspections throughout the manufacturing process, we ensure every product meets exacting standards. Our service accepts multiple file formats (STL, OBJ, STEP, IGES) for seamless integration with your workflow.

Ideal for rapid prototyping and production parts, our advanced 3D printing technology delivers fast turnaround times without compromising quality - helping you meet tight deadlines and maintain competitive advantage.

Key Features

- Material options: Stainless steel, aluminum, nylon, ABS, rubber, resin
- Support structures included
- Rapid prototyping capabilities
- Multiple color options available
- Operational port: Shenzhen

Technical Specifications

Parameter	Specification
File Formats Accepted	STL, OBJ, STEP, IGES
Minimum Detail Size	0.1 mm
Primary Materials	Stainless steel, aluminum
Build Volume	Up to 1000mm × 1000mm × 1000mm
Tolerance	±0.1 mm
Quality Control	Inspection and testing
Additional Materials	Nylon, ABS, rubber, resin, plastic
Lead Time	1-2 weeks

Applications

Our 3D printing service is ideal for:

- Plastic prototype manufacturing
- End-use plastic product production
- Customized plastic components
- High-detail resin printing applications

Customization Options

Brand: Industrial Man

Model: OEM

Origin: Guangdong, China

Build Volume: Up to 1000mm × 1000mm × 1000mm

Service Type: Rapid Prototyping

Support Structures: Available

Minimum Detail: 0.1 mm

Technical Support & Services

- 3D printing process troubleshooting
- Design optimization guidance
- Material selection recommendations
- Training sessions available
- Continuous service improvements
