

## Custom CNC Machining Parts with $\pm 0.01$ mm Tolerance and 5-axis CNC Machining | ISO 9001:2015 Certified

Our Product Introduction

for more products please visit us on [lathecnmachining.com](http://lathecnmachining.com)

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: Industrial-Man
- Model Number: OEM
- Minimum Order Quantity: 1PC
- Price: Negotiable
- Packaging Details: As the requirement of customer
- Payment Terms: L/C,D/A,D/P,T/T,Western Union,MoneyGram

### Product Specification

- CNC Machining: Yes
- Micro Machining: Yes
- Machining Process: Turning, Milling, Drilling, EDM Wire Cutting, Laser Processing, Chemical Processing, Rapid Prototyping, Other Machining
- Material Capability: Aluminum, Brass, Bronze, Copper, Stainless Steel, Alloy Steel, Hardened Metal, Precious Metals
- Material Type: Aluminum / Metal / Brass / Stainless Steel / Titanium / Copper
- Equipment: 3-axis / 4-axis / 5-axis CNC Machining Centers
- Tolerance:  $\pm 0.01$  Mm /  $\pm 0.005$  Mm
- Surface Treatment: Anodizing, Electroplating, Sandblasting, Polishing, Painting, Deburring

### Product Description

#### Custom CNC Machining Services for Aluminum Parts

We are an OEM parts supplier specializing in custom CNC machining services for aluminum turning and milling parts. With stable production capacity and experienced technicians, we support OEM customers with reliable quality and consistent delivery.

Our Product

Based on customer drawings or samples, we manufacture precision aluminum components with controlled tolerances and clean machining quality. Our CNC turning and milling processes are suitable for a wide range of custom parts, including structural components, functional parts, and assembly accessories.

We accept prototype orders, small batches, and mass production. Strict process control and in-house inspection ensure each part meets customer requirements before shipment. Our service is focused on efficiency, flexibility, and long-term cooperation.

### Service Advantages

- Direct factory OEM machining service
- Support custom drawings and samples
- Suitable for prototype to mass production
- Stable quality and repeatable accuracy
- Short lead time with reliable delivery

### Technical Specifications

<b>CNC Machining</b>	Yes
<b>Micro Machining</b>	Yes
<b>Machining Process</b>	Turning, Milling, Drilling, EDM Wire Cutting, Laser Processing, Chemical Processing, Rapid Prototyping, Other Machining
<b>Material Capability</b>	Aluminum, Brass, Bronze, Copper, Stainless Steel, Alloy Steel, Hardened Metal, Precious Metals
<b>Material Type</b>	Aluminum / Metal / Brass / Stainless Steel / Titanium / Copper
<b>Equipment</b>	3-axis / 4-axis / 5-axis CNC Machining Centers
<b>Tolerance</b>	±0.01 mm / ±0.005 mm
<b>Surface Treatment</b>	Anodizing, Electroplating, Sandblasting, Polishing, Painting, Deburring
<b>Drawing Format</b>	STP, STEP, IGS, PRT, X_T
<b>OEM / ODM</b>	Supported
<b>Certification</b>	ISO 9001:2015, IATF 16949:2016
<b>Lead Time</b>	3-5 working days

### Frequently Asked Questions

#### Are you a trading company or factory?

We are a manufacturer with our own CNC machining factory.

#### Can you make parts according to our drawings?

Yes, we provide custom machining based on customer drawings or samples.

#### What is your MOQ?

No strict MOQ. Prototype and small orders are acceptable.

#### What is the production lead time?

Lead time depends on part complexity and order quantity.

#### Do you support long-term OEM cooperation?

Yes, we support stable and long-term OEM production orders.
